Research Handbook on the Law of Virtual and Augmented Reality Woodrow Barfield,Marc Jonathan Blitz,2018-12-28 Virtual and augmented reality raise significant questions for law and policy When should virtual world activities or augmented reality images count as protected First Amendment speech and when are they instead a nuisance or trespass When does copying them infringe intellectual property laws When should a person or computer face legal consequences for allegedly harmful virtual acts The Research Handbook on the Law of Virtual and Augmented Reality addresses these questions and others drawing upon free speech doctrine criminal law issues of data protection and privacy legal rights for increasingly intelligent avatars and issues of jurisdiction within virtual and augmented reality worlds

True-3D in Cartography Manfred Buchroithner,2012-01-03 As corroborated by the never sagging and even increasing interest within the last decade the intuitive attraction of True 3D in geodata presentation is well worth covering its current status and recent developments in a compendium like the present one It covers most aspects of auto stereoscopic representation techniques of both topographic and thematic geodata be they haptic or not Theory is treated as well as are many fields of concrete applications Displays for big audiences and special single user applications are presented well established technologies like classical manual fabrication of landscape reliefs contrast with cutting edge developments

Hyperconnectivity and Digital Reality Kathrin Otreel-Cass,2019-08-23 This book addresses the topic of hyperconnectivity by building on expanding and critically examining issues that have to do with information communication technology ICT and networked societies The book explores questions relating to attention and consciousness techno capitalism and communicative action taking Adopting different philosophical angles to assess the challenges we face due to our entanglement with hyperconnected technologies the book studies performance and performativity in a digitised world by considering the unfolding of our onlife and by looking at what this means to educated future scientists and engineers in a hyperconnected world The book further discusses digital activities as the new constructs of ourselves and poses questions about how much literacy is needed for us not to be enslaved by those constructs The book also explores the challenges of hyperconnectivity and the health sector to showcase the vulnerabilities we are increasingly exposed to It makes clear that

since the boundaries between on and offline are becoming increasingly blurred we will require new flexible frameworks that reconsider what it means to be human in a hyperconnected world
