Higher Education, Community Engagement and Entrepreneurship in Southern Africa I. G. Govender, 2021-02-24

This volume explores the pressing issues of entrepreneurship education and development in Southern Africa. It discusses the various roles of higher education institutions in enhancing entrepreneurship in localised communities and provides a systematic solution for improving the Southern African economy by realising the importance of empowering the youth with entrepreneurial skills. In addition, successful development requires effective policies and contemporary approaches to both community engagement and entrepreneurship management. The book uses different Southern African case studies to discuss the various issues and innovations in entrepreneurship in the country.

Clinical Engineering Handbook Ernesto Iadanza, 2019-12-06. Clinical Engineering Handbook Second Edition covers modern clinical engineering topics giving experienced professionals the necessary skills and knowledge for this fast evolving field. Featuring insights from leading international experts, this book presents traditional practices such as healthcare technology management, medical device service and technology application. In addition, readers will find valuable information on the newest research and groundbreaking developments in clinical engineering such as health technology assessment, disaster preparedness, decision support systems, mobile medicine and prospects and guidelines on the future of clinical engineering. As the biomedical engineering field expands throughout the world, clinical engineers play an increasingly important role as translators between the medical engineering and business professions. In addition, they influence procedures and policies at research facilities, universities and in private and government agencies. This book explores their current and continuing reach and its importance. Presents a definitive, comprehensive and up to date resource on clinical engineering. Written by worldwide experts with ties to IFMBE, IUPESM, Global CE Advisory Board, IEEE, ACCE and more. Includes coverage of new topics such as Health Technology Assessment, HTA, Decision Support Systems, DSS, Mobile Apps, Success Stories in Clinical Engineering and Human Factors Engineering.

Tourism and Hospitality for Sustainable Development Emmanuel Ndhlovu, Kaitano Dube, Tawanda Makuyana, 2024-09-12. The travel and hospitality industry in the 21st century cannot be conceived, planned, advertised, run or researched without the use of digital technology and innovation. Sustainable development in this sector cannot be achieved without considering the Fourth Industrial Revolution. The use of technology not only enhances the industry's profitability but also helps it to respond effectively to pressing global sustainability issues such as pandemics, climate change, energy crises, workforce shortages and hyperinflation. Furthermore, technology allows the sector to fully evaluate its current and future economic, social and environmental impacts, addressing the needs of tourists, businesses, the environment and destinations. However, implementing technology is not a simple process and involves various opportunities, costs and challenges that differ depending on the geopolitical and socio-economic context. With the drive towards disability inclusion, digitalisation, technological innovations and inventions can play a significant role in universal design and reasonable

accommodation for older people and populations with disabilities in the Global North and South such forms one of the key pillars of accessible tourism and hospitality In the context of the above and in response to the thoughtful need for new and sustained study of the developments interrelationships potentialities of the topic and synergies this edited book explores the trends opportunities challenges and complexities of digitalisation and technology integration in the tourism and hospitality industry as well as strategic shifts that will contribute to emerging research streams The book comprises contributions that generate theoretical insights empirical findings and evidence based recommendations by focusing on emerging and forecasted technologies used in the tourism and hospitality industry such as blockchains robots Artificial Intelligence Virtual Reality big data and analytics The aim is to provide a better understanding of how disruptive technologies and digitalisation are currently being utilised and how they currently and potentially influence various stakeholder groups as well as their future possibilities and impossibilities The third volume in a three volume set primarily covers how these new technologies impact consumers and employees of tourism related services

Fees Must Fall Susan Booyesen,2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and it s double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co

opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt Street Rebellion Benjamin S. Case,2022-12-06 The complex relationship between violence and nonviolence in social movements We are living in a time of uprisings that routinely involve physical confrontation burning vehicles barricades vandalism and scuffles between protesters and authorities Yet the Left has struggled to incorporate rioting into theories of change remaining stuck in recurring debates over violence and nonviolence Civil resistance studies have popularized the term strategic nonviolence spreading the notion that violence is wholly counter productive Street Rebellion scrutinizes recent research and develops a broad and grounded portrait of the relationship between strategic nonviolence and rioting in the struggle for liberation African Languages in Classrooms and Academia: Intellectualisation and Empowerment through Formal Education Xolisa Tshongolo,2024-12-02 To date there have been few comprehensive books published which deal specifically with the role of African languages in academia and formal education Motinyane Mletshe and Tshongolo as editors have produced a book that fills this gap In this timely collection of 21 chapters written in African languages and English the contributors offer a critique of both language practice in the classroom as well as language planning policy creation and implementation challenges A timely and innovative contribution in the area of language in education teaching pedagogy as well as multilingualism **Entrepreneurship Education in Tourism and Hospitality Management** Bagri, Satish Chandra,Dhodi, R.K.,Junaid, K.C.,2022-05-27 Entrepreneurship education is a rapidly evolving field that is critical to the development of well equipped and competent business leaders The importance of training the future generation of managers and leaders cannot be overlooked as they play a vital role in ensuring the survival of various industries and companies Entrepreneurship Education in Tourism and Hospitality Management provides an in depth look at various cases of entrepreneurship education in the tourism and hospitality industries across the world as well as their recent changes and developments This book also advances the literature in the field of entrepreneurship education by broadening the discussion on the recent trends and ongoing challenges to include perspectives on creating the next generation of tourism and hospitality entrepreneurs Covering topics such as digital education and tourism sustainability this reference work is ideal for administrators academicians policymakers entrepreneurs scholars researchers practitioners instructors and students **The A to Z of Careers in South Africa** ,2006 Phytochemical Profiling of Commercially Important South African Plants Alvaro Viljoen,Weiyang Chen,Nduvho Mulaudzi,Guy Kamatou,Maxleene Sandasi,2021-08-28 Phytochemical Profiling of Commercially Important South African Plants comprises a carefully selected group of plant species that are of interest to

researchers and industry partners who would like to investigate the commercialization of plant species The book presents 25 botanicals selected based on commercial relevance For each of the species the following topics are covered botanical description and distribution phytochemistry including chemical structures HPTLC fingerprint analysis UPLC analysis and GC analysis the latter only in the case of essential oil bearing species Using standard methodology high level chromatographic fingerprints have been developed for better understanding Different methods are succinctly summarized allowing for the rapid identification of botanical raw materials and formulated consumer products This book will be extremely valuable to researchers in the field who wish to rapidly identify the constituents and for those who want to prepare formulations of plant material for commercial applications This work will also be a valuable resource in the field of pharmacognosy Comprehensive chemical profiling of each species Fingerprints developed for non volatile and volatile constituents Methods succinctly summarized to ensure reproducibility **Servamus** ,2007

Engineers in a Developing Country Rènnette Du Toit,Joan Roodt,2009 The study provides a demographic analysis of employment trends across the public and private sectors of the economy and investigates the demand for engineers technologists and technicians in the workforce A comprehensive analysis of the educational context for engineering professionals focuses on enrolment graduation and throughput trends in all engineering disciplines at universities and universities of technology and reveals that although there have been positive innovations in education and training strategies in recent years many issues especially at secondary school level remain a challenge Women in engineering is a particular focus of this study which devotes a chapter to examining the factors that influence their choice of career the barriers they experience in the labour market and strategies for encouraging women into the profession This comprehensive monograph offers valuable quantitative and qualitative information about engineering capacity across all engineering disciplines in South Africa It is therefore an important reference for all engineering academics as well as decision makers in both the private and public sectors and will be useful to aspiring and current engineering students whatever their field **Drum** ,2007

The Urban Ecologies of Divided Cities Amira Osman,John Nagle,Sabyasachi Tripathi,2023-06-12 The book discusses how division affect the fabric of cities and people s sense of identity and agency and are reflected in physical features architecture and urban planning The question of divided cities represents a complex and multistranded urban Ecology at once both social and spatial it cannot be limited to a single science or discipline such as social or spatial fields This suggests integrated and cross disciplinary understandings as well as integrated or parallel approaches and solutions Urban ecologies of division manifest in multiple forms One of their most palpable expressions is conflict with parallels around the world and often with correlations in the spatial fabric Violence in such contexts is often a surface expression of deeper socio economic or ideological differences Whether as a result of intervention by authority or by dissent between groups a divided city inevitably becomes a place of conflict in various forms and intensity eroding the joy of living and sense of collective belonging to the detriment of all In effect it erodes the collective

advantage of being part of a more unified society A city exists in collections of social structures which mutually form a society A divided city implies divided social structures and in consequence a divided society The papers compiled in this book present many case studies of divided cities discussing the different causes of divisions and their effects on societies Some of the causes can be linked to conflicts wars colonialism or legislative political systems In response to the serious challenges resulting from these divisions the book aims to provide opportunities for new approaches and possibilities for new interventions and solutions making it significant to urban planners architects and policymakers South Africa Yearbook

Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic

papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8

September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the

contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the

studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were

objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used

adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from

one contribution to the next However it is interesting to note that in the area of economic performance it was evident that

real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of

personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on

organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new

strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an

organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment
