-National Strength & Conditioning Association, Margaret T. Jones, 2024-11-13 NSCA's Guide to Program Design Second Edition is the definitive resource for designing scientifically based training programs. Developed by the National Strength and Conditioning Association, NSCA the second edition provides the latest information and insights from the leading educators, practitioners, and researchers in the field. Created for strength and conditioning professionals, educators, and candidates preparing for certification, NSCA's Guide to Program Design presents an evidence-based framework for athlete assessment, strategies, and training principles. This authoritative text moves beyond the simple template presentation of program design to help readers understand the reasons and procedures for sequencing training in a safe, sport-specific manner. In addition to programming for resistance training, the book also addresses how to design training programs for power, endurance, agility, and speed. Straightforward and accessible, NSCA's Guide to Program Design details the considerations and challenges in developing a program for each key fitness component. It shows you how to begin the process of assessing athlete needs, as well as how to select performance tests. Dynamic warm-up and static stretching protocols and exercises are addressed before moving into in-depth programming advice based on a performance goal. The final two chapters help you put it all together with a discussion of training integration, periodization, and implementation. With sample workouts and training plans for athletes in a variety of sports, technique photos, and instructions for select drills, and a sample annual training plan, you will be able to assemble effective and performance-enhancing training programs for all your athletes. NSCA's Guide to Program Design is part of the Science of Strength and Conditioning series. Developed with the expertise of the National Strength and Conditioning Association, NSCA, this series of texts provides the guidelines for converting scientific research into practical application. The series covers topics such as tests and assessments, program design, and nutrition. Earn continuing education credits. A continuing education exam that uses this book is also available. It may be purchased separately or as part of a package that includes both the book and exam.

Second International Handbook of Lifelong Learning David N. Aspin, Judith Chapman, Karen Evans, Richard Bagnall, 2012-01-18 The second edition of the International Handbook of Lifelong Learning is extensive, innovative, and international in scope, remit, and vision, inviting its readers to engage in a critical re-appraisal of the theme of lifelong learning. It is a thoroughgoing, rigorous, and scholarly work with profound and wide-ranging implications for the future of educating institutions and agencies of all kinds in the conception, planning, and delivery of lifelong learning initiatives. Lifelong learning requires a wholly new philosophy of learning, education, and training, one that aims to facilitate a coherent set of links and pathways between work, school, and education, and recognises the necessity for government to give incentives to industry and their employees so they can truly invest in lifelong learning. It is also a concept that is premised on the understanding of a learning society in which everyone, independent of race, creed, or gender, is entitled to quality learning that is truly excellent. This book recognises the need for profound changes in education and for goals that are critically important to education, economic advancement, and social involvement. To those concerned about the future of

our society our economy and educational provision this book provides a richly illuminating basis for powerful debate Drawing extensively on policy analyses conceptual thinking and examples of informed and world standard practice in lifelong learning endeavours in the field both editors and authors seek to focus readers attention on the many issues and decisions that must be addressed if lifelong learning is to become a reality for us all **Education and the Law Series (EDLAW).** Robert
