Ethno-erotic Economies George Paul Meiu, 2017-10-10 Ethno erotic Economies explores a fascinating case of tourism focused on sex and culture in coastal Kenya where young men deploy stereotypes of African warriors to help them establish transactional sexual relationships with European women In bars and on beaches young men deliberately cultivate their images as sexually potent African men to attract women sometimes for a night in other cases for long term relationships George Paul Meiu uses his deep familiarity

with the communities these men come from to explore the long term effects of markets of ethnic culture and sexuality on a wide range of aspects of life in rural Kenya including kinship ritual gender intimate affection and conceptions of aging What happens to these communities when young men return with such surprising wealth And how do they use it to improve their social standing locally By answering these questions Ethno erotic Economies offers a complex look at how intimacy and ethnicity come together to shape the pathways of global and local trade in the postcolonial world
