ICEL2016-Proceedings of the 11th International Conference on e- Learning Prof. Dr. Rozhan M. Idrus and Dr Nurkhamimi Zainuddin,2016 Polymer Nanocomposites for Advanced Engineering and Military Applications Ramdani, Nouredine,2019-04-01 The field of polymer nanocomposites has become essential for engineering and military industries over the last few decades as it applies to computing sensors biomedical microelectronics hard coating and many other domains Due to their outstanding mechanical and thermal features polymer nanocomposite materials have recently been developed and now have a wide range of applications Polymer Nanocomposites for Advanced Engineering and Military Applications provides emerging research on recent advances in the fabrication methods properties and applications of various nano fillers including surface modification methods and chemical functionalization Featuring coverage on a broad range of topics such as barrier properties biomedical microelectronics and matrix processing this book is ideally designed for engineers industrialists chemists government officials military professionals practitioners academicians researchers and students University on the Border Lis Lange,Vasu Reddy ,Siseko H. Kumalo,2021-08-27 The volume explores and thinks through the process of decolonising the South African higher education system by examining MustFall The text offers theoretical insights from a historical contemporary and multidisciplinary lens while examining the embedded meanings of the university as an institution idea and set of practices to show the shifts and changes that were inaugurated by MustFall along with the historicities that define the university both locally and globally The retro and prospective insights presented in the book surface the crisis of authority that places the university in a state of precarity which is framed in the book as the border The volume proposes the concept of the border recognising its conceptual and analytical dynamism as a generative space that can facilitate new imaginaries and articulations of this social institution the university ECIC2016-Proceedings of the 8th European Conference on Intellectual Capital Carlo Bagnoli, Chiara Mio, Andrea Garlatti and Maurizio Massaro,2016-04-21 Proceedings of The Focus Conference (TFC 2022) Manyane Makua,Mariam Akinlolu,Mashango Sithole,Phiwayinkosi Gumede,Cebo Nyondo,2023-02-08 This is an open access book It is a common cause globally that the abrupt emergence of Covid 19 wreaked havoc in all sectors including the higher education system The sudden closure of campuses as a social distancing measure to prevent community transmission has shifted face to face classes to online teaching and learning a transformative experiment for academics and students in most institutions This has thrown the focus on utilising Learning Management Systems LMS eLearning tools and platforms for effective student engagement which may have limitations of accessibility and affordability for many students The pandemic has exposed the shortcomings of the current higher education system and the need for more training of academics and practitioners in digital technology to adapt to the rapidly changing educational climate In the post pandemic situation eLearning and virtual education may become an integral part of the higher education system hence the question of re inventing higher education The higher education

institutions and universities need to plan the post pandemic education and research strategies to ensure student learning outcomes and standards of educational quality With the move to online teaching and learning subsequently traditional assessments followed and were adapted and adopted for online assessment Assessments lie at the heart of the teaching process It shapes students understanding of the curriculum and determines their ability to progress Reflections on assessments during Covid 19 abounded with the challenges that both academics and students faced regarding online assessments including cheating and quality assurance issues The focus on quality extended to the quality of teaching and learning in general Moreover the pandemic brought about the question of staff and student health and psychosocial support also became important For academics the abrupt shift to adapt to working from home and implementing online learning has led to over work low work life balance and compromised mental health With a view on constructive and futuristic discourse the sub themes of the 2022 Focus conference encapsulate the current realities in the higher education sector and beyond It further provides opportunities for an in depth analysis based on the benefit of hindsight and foresight The Organising Committee specifically coined the theme Re inventing higher education Insights trends and lessons learnt from specifically for the conference to reflect on and address the matters mentioned earlier Academics scholars and practitioners in the higher education sector are called upon to share their research and express their perspectives on the reinvention of higher education

Higher Education ICT Integration in Africa Ke Yu, Reuben Dlamini, 2024-08-21 This multidisciplinary edited volume examines higher education's ICT integration in Africa contributing a new and inclusive change readiness framework to better understand how to manage ICT or other technological disruptions in resource restrained contexts Tackling ICT incorporation in HEIs from different levels chapters document case studies from countries such as Uganda South Africa Rwanda Eswatini and Zimbabwe to demonstrate both the complexity of integration but also the successes it has enabled and under which conditions The cases included in this book also exhibit better incorporation of both change content and process while some cases also make explicit reference to other technology adoption models Ultimately the book highlights conceptual and empirical research to inform practices and policy development in Africa improving multi level success or change readiness in ICT incorporation in HEIs in Africa Addressing various gaps in existing literature and proposing innovative solutions like the multilevel change readiness model this book will therefore be of interest to scholars researchers and academics in the fields of higher education ICT integration and educational technology more broadly The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Innovations in online teaching and learning Judah P. Makonye, Nokulunga S. Ndlovu, 2023-03-01 This book's research is on online pedagogical approaches devised by teacher educators and researchers to circumvent a face to face curriculum delivery during the COVID 19 pandemic The challenge faced by educators was that they were uncertain of how to use digital technologies in teaching learning and assessment

productively This book reports on case studies on teaching student teachers with technology in a way that advanced not only communication but also the cognitive growth of students in relation to disciplinary knowledge The scholars from South African universities used both conceptual and empirical methodologies mostly in qualitative set ups The scholarly contributions in this book are varied They cover theoretical nuances for ICT use in education considerations for the use of computers in the classroom pedagogical thinking and pedagogical integration of ICTs in education affordances of iPads in visible teaching and learning supporting student cognition in Languages Mathematics Science Engineering Graphics and Design with ICTs The use of software applications such as GeoGebra and Excel in teaching and learning mathematics is researched among others The rich discussions that emerged from their research enable academics to learn from others innovative moments that came as a result of pandemic pressure The recommendations in this book can be used in blended learning beyond the COVID 19 era as curriculum delivery methods are bound to change The value of this book is that it reports on pedagogical innovations in using digital technologies in teacher education Researchers have an opportunity to learn from this book how to deal with the tantalising teaching and learning problem of our time How can the use of digital technology transform teaching and learning in general and teacher education in particular Access to Justice in Rural Communities

Daniel Newman, Faith Gordon, 2023-05-04 This book offers insight on access to justice from rural areas in internationally comparable contexts to highlight the diversity of experiences within and across rural areas globally It looks at the fundamental questions for people's lives raised by the issue of access to justice as well as the rule of law It highlights a range of social geographic and cultural issues which impact the way rural communities experience the justice system throughout the world with chapters on Australia Canada England Ireland Kenya Northern Ireland South Africa Syria Turkey the USA and Wales Each chapter explores three questions 1 How do people experience the institutions of justice in rural areas and how does this rural experience differ to an urban experience 2 What impact have changes in policy had on the justice system in rural areas and have rural and urban areas been affected in different ways 3 What impact does the law have on people's lives in rural areas and what would rural communities like to be better understood about their experience of the justice system By bringing in the voices and experiences of those who are often ignored or sidelined by justice systems this book will set out an agenda for ensuring social justice in legal systems with a focus on protecting marginalised groups

Explorations in Southern African Drama, Theatre and Performance Patrick J. Ebewo, 2017-05-11 In spite of the rich repertoire of artistic traditions in Southern Africa particularly in the areas of drama theatre and performance there seems to be a lack of a corresponding robust academic engagement with these subjects While it can be said that some of the racial groups in the region have received substantial attention in terms of scholarly discussions of their drama and theatre performances the same cannot be said of the black African racial group As such this collection of thirteen chapters represents a compendium of critical and intellectual discourses on black African drama theatre and performance in Botswana

Lesotho South Africa and Swaziland The topics covered in the book include amongst others ritual practices interventionist approaches to drama textual analyses and the funeral rites viewed as performance of the South African liberation icon Nelson Mandela The discussions are rooted mainly using African paradigms that are relevant to the context of African cultural production The contributions here add to the aggregate knowledge economy of Southern Africa promote research and publication and provide reading materials for university students specialising in the performing arts As such the book will appeal to academics theatre scholars cultural workers and arts administrators arts practitioners and entrepreneurs the tourism industry arts educators and development communication experts The Land Is Sung Thomas M.

Pooley,2023-10-17 What does it mean to belong In *The Land is Sung* musicologist Thomas M Pooley shows how performances of song dance and praise poetry connect Zulu communities to their ancestral homes and genealogies For those without land tenure in the province of KwaZulu Nata performances articulate a sense of place Migrants express their allegiances through performance and spiritual relationships to land are embodied in rituals that invoke ancestral connection while advancing well being through intergenerational communication Engaging with justice and environmental ethics education and indigenous knowledge systems musical and linguistic analysis and the ethics of recording practice Pooley s analysis draws on genres of music and dance recorded in the midlands and borderlands of South Africa and in Johannesburg s inner city His detailed sound writing captures the visceral experiences of performances in everyday life The book is richly illustrated and there is a companion website featuring both video and audio examples *Facing homelessness* Stephan de Beer,Rehana

Vally,2022-02-10 In *Facing homelessness* Finding inclusionary collaborative solutions we face the other and in facing the other we face ourselves This book contributes to an emerging body of knowledge on street homelessness in the South African context It is meant for researchers and scholars who are committed to finding solutions for street homelessness It offers conceptual frameworks and practical guidelines for a liberating and transformative response to homelessness It brings together authors from a wide range of disciplines fusing the rigour of researchers the vision of activists and the lived experience of practitioners In this volume the causes of street homelessness in South Africa today and its different faces are traced It critiques singular solutions and interrogates the political institutional and moral failures that contribute to the systemic exclusion of homeless persons and other vulnerable populations from society It proposes rights based interventions as part of a radical re imagination of how street homelessness can be ended one person and one neighbourhood at a time The analysis by the authors steers the direction of new ways of doing and being that could demonstrate concrete viable and sustainable alternatives to the exclusionary realities faced by homeless persons It argues for solution based approaches aimed at radical forms of social inclusion and achieved through broad based and creative collaborations by all spheres of society In the face and presence of street homelessness as one expression of urban vulnerability and deep socio economic inequality society is confronted with a clear political institutional moral and personal obligation This volume calls for a

reclamation of community in its most inclusionary life affirming and interdependent sense asserting that we truly are well because of others and we are unwell if others are It is a call to reclaim our common humanity in the context of inclusive communities where all are equally welcome and bestowed with dignity and honour *Higher Education Pathways* Paul Ashwin, M. Case, 2018-12-13 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues **New Models for Technical and Vocational Education and Training** Makgato, Moses, Afeti,

George, 2020-12-18 Technical and vocational education and training at technical schools are major contributing factors in combating poverty unemployment and inequality The primary purpose of technical and vocational education and training is to prepare students and learners for the world of work and for a smooth transition from education institutions into the workplace As the Fourth Industrial Revolution continues to create more radical changes in the labor market experts are calling for a reform of education including vocational education and training and adult and professional education *New Models for Technical and Vocational Education and Training* is an essential scholarly research book that examines TVET and CET colleges and programs that provide intermediate skills to enhance students chances of employability and entrepreneurship in Industry 4.0 The book explores knowledge in respect to workforce preparation digital skills development teaching and learning of TVET flexibility and articulation of TVET to respond to work integrated learning and reskilling and upskilling to avoid skill mismatches It is ideal for TVET schools academicians curriculum designers managers training officers administrators vocational professionals researchers and students *Traditional Musics in the Modern World: Transmission, Evolution, and Challenges* Bo-Wah Leung, 2018-07-25 This book reviews the current practices of traditional

musics in various cultures of all continents and examines the impact and significance of traditional musics in the modern world A diverse group of experts of musicology and music education collaborate to expose the current practices and challenges of transmission and evolution of traditional musics in order to seek sustainable development so that traditional musics can take the place they deserve in the modern world and continue to contribute to human civilization This volume contains three main sections that include transmission of traditional musics authenticity and evolution as well as challenges

in future Based on the chapters the editor proposes four major trends of transmission of traditional musics namely formalization politicization Westernization and modernization in transforming contexts

Sustainable Development in Africa Walter Leal Filho,Rudi Pretorius,Luiza Olim de Sousa,2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies

Cross-Impact Balances (CIB) for Scenario Analysis Wolfgang Weimer-Jehle,2023-05-02 Cross Impact Balances CIB is a method frequently used for research in companies and in administrations for the systematic construction of qualitative scenarios This book introduces the fundamentals of the method and uses a clear step by step example to explain how scenarios can be constructed with CIB It describes possible problems in applying the method and offers help for various use cases It includes a detailed discussion of the design decisions that shape a CIB application and the methods that can be used to collect the necessary data The application examples presented provide a first impression of the possibilities of the method A discussion of the strengths and limitations of the method offers guidance on the use cases in which CIB can be profitably applied The book is valuable for researchers and practitioners in the field of scenario analysis

Public Intellectuals in South Africa Chris Broodryk,2021-07-01 This edited collection gives voice to neglected public intellectuals in the arts humanities and journalism in South Africa who gave voice and presence to those who have been marginalized and silenced in South African history Edward Said described a public intellectual as someone who uses accessible language to address a designated public on matters of social and political significance The essays in Public Intellectuals in South Africa apply this interpretive prism and activist principle to a South African context and tell the stories of well known figures as well as some that have been mostly forgotten They include Magma Fuze John Dube Aggrey Klaaste Mewa Ramgobin and Koos Roets alongside

marginalized figures such as Elijah Makiwane Mandisi Sindo William Pretorius and Dr Thomas Duncan Greenlees The essays capture the thoughts and opinions of these historical figures who the contributors argue are public intellectuals who spoke out against the corruption of power promoted a progressive politics that challenged the colonial project and its legacies and encouraged a sustained dissent of the political status quo Offering fascinating accounts of the life and work of these writers critics and activists across a range of historical contexts and disciplines from journalism and arts criticism to history and politics it enriches the historical record of South African public intellectual life This volume makes a significant contribution to ongoing debates about the value of research in the arts and humanities and what constitutes public intellectualism in South Africa
