Local economies and pandemics: Marius Venter, Chané de Bruyn, 2023-12-14. The outbreak of the global COVID-19 pandemic has presented unprecedented challenges to both developed and less developed local economies. The aim of the book is to uncover the best practices in responding to a pandemic from global perspectives as well as from a transdisciplinary point of view. Scholars from various spheres in arts, culture, education, health, environment, business, and the public sector present their perspectives on the impacts, responses, and consequences for local economies and communities. As a fundamental part of LED, the arts, culture, education, health, environment, business, and the public sector domains were some of the hardest hit by the pandemic. The pandemic has certainly exposed the weaknesses of current development policies and calls for new innovative measures in developing resilient local regions. This book will form an essential part of the development series of CENLED as it offers insight into how a global pandemic COVID-19 impacted LED in the global North and Global South and the different responses from different spheres.

*Exploring the Role of ICTs in Healthy Aging* Mendes, David, Fonseca, César, Lopes, Manuel José, García-Alonso, José, Murillo, Juan Manuel, 2020-05-31. Technological innovation continues to be present in all areas of our lives, offering seemingly endless possibilities. As technology is increasingly implemented in healthcare applications, it is necessary to understand whether users respond to a predefined organizational strategy or model of care or whether they will become wholly dependent on the healthcare technology. This understanding is especially crucial when dealing with the possibility of generating inequities, especially with individuals that are elderly. *Exploring the Role of ICTs in Healthy Aging* is a collection of innovative research that proposes the detailed study of a strategic framework for the development of technological innovation in healthcare and for its adoption by health organizations. While highlighting topics including emotional health, quality of life, and telemedicine, this book is ideally designed for physicians, nurses, hospital staff, medical professionals, home care providers, hospital administrators, academicians, students, and researchers. Moreover, the book will provide insights and support executives concerned with the management of expertise, knowledge, information, and organizational development in different types of healthcare units at various levels.
