British diplomat father Burton Race helped the family chef while being exposed to global tastes and flavours that still influence his style of cooking. He worked under renowned chef Raymond Blanc at Le Manoir aux Quat Saisons and when Blanc opened Le Petit Blanc in Oxford he turned to Burton Race to head the kitchen. Here the young aspiring chef would win his first Michelin star. Three years later he opened his own restaurant L'Ortolan in Berkshire. Awarded two Michelin stars, the achievement was repeated in 2000 at John Burton Race Restaurant at London's Landmark Hotel. Television viewers however bore witness to his mercurial nature in the fly on the wall series *French Leave* and *Return of the Chef* and an appearance on *I'm a Celebrity Get Me Out of Here* ended in disaster when his second wife closed his Devon restaurant while he was in the Australian bush. Possessed of an innate talent for self destruction, John Burton Race is still driven, still complex, still controversial, still living life at 100 miles an hour. This is his story.

Culinary Technology of the Ancient Near East Jill L. Baker, 2024-10-28. *Culinary Technology of the Ancient Near East* discusses the technical aspects of meal preparation, cooking and baking in the ancient Near East, exploring a wide range of topics including kitchens, cooking equipment, cooking and baking vessels, and serving and eating utensils. Chapters explore and describe the culinary technologies and techniques employed by the peoples of the ancient Near East from the Neolithic to the Early Roman period, considering their unique and pioneering contributions to the development and evolution of gastronomic devices and apparatus, and highlighting some of the foods prepared by them, recognizing their application and influence in contemporary cooking and baking. Baker brings together in a single volume what is known about the culinary technology of the ancient Near East based on the archaeological, textual, historic and scientific data drawn from a wide range of studies and discusses this data in terms of its cultural, historic and socio-economic context. She emphasizes these technologies as the foundation upon which modern culinary technology is based and applies relevant ancient techniques to modern systems. Overall, the volume acknowledges the ingenuity of the ancient mind in order to understand their culinary technology, which in turn helps us better understand our own and apply these and new ideas to the present and future. This is a fascinating study suitable for students and scholars working on food and households in the ancient Near East as well as those working on the history of food, cooking and dining, and the history of technology more broadly.
