to the world stage Ever since Turkey has turned into a major power broker and has developed into one the largest economies in the world In the process however the country has failed to solve its ethnic religious and historical conflicts peacefully At this historical turning point Kerem Oktem charts the contemporary history of Turkey exploring such key issues as the relationship between religion and the state Kurdish separatism Turkey s relationship with Israel and the ongoing controversy over Turkey s entry into the EU Readable but comprehensive this is the definitive book on the country s erratic transformation from a military dictatorship to a maturing if still troubled democracy
