The Cases of Cameroon, South Africa, Eritrea and Zimbabwe**

Donald P. Chimanikire,2009 Student activism in Africa at least since the early 1990s has been preoccupied with popular struggles for democracy in both their respective countries and institutions of higher learning The changing socio economic and political conditions in many African countries characterized by the decline in economic growth and the introduction of multi party politics among several other factors have had different impact on students and student political organizations in African universities This book recounts the responses of students to these changes in their attempt to negotiate better living and studying conditions The four case studies contained in the book Cameroon South Africa Zimbabwe and Eritrea clearly reveal the very important aspects of the situation in which African students find themselves in many countries and underscores the need to understand the character and development of higher education on the continent Ministries of Higher Education Vice Chancellors Deans of Students Student Unions and parents will find this book very useful in terms of understanding the tensions that often arise at institutions of higher learning and why solutions seem to be elusive

Reinventing Management Julian Birkinshaw,2010-02-22 The recent economic crisis was not just caused by a failure of regulation or economic policy it was a story of the failure of management in a fundamental sense a deeply flawed approach to management that encouraged bankers to pursue opportunities without regard for their long term consequences and to put their own interests ahead of those of their employers and their shareholders And looking more widely there is a creeping disenchantment with management as a profession surveys show that managers generate less respect than lawyers and bankers in the eyes of the general public and there are few if any positive role models for management Change isn't just for the rank and file anymore it's coming for you Instant access to information and global resources have changed the world we live and work in Julian Birkinshaw shows that 19th century industrial management won't work in a 21st century fluid workplace Read this or prepare to be game changed by someone who has Jack Hughes CEO TopCoder Technological and social changes are having an enormous impact on the world of business and on the way companies are managed In this book Julian Birkinshaw provides a roadmap for making sense of how the world of management is changing and he provides useful advice for companies who want to harness the potential that Web 2.0 has to offer PV Kannan CEO 24/7 Customer Julian Birkinshaw helps us look beyond our legacy management practices and imagine bold new ways of leading managing and organizing Filled with mind expanding examples Reinventing Management is a must read for managers who want to build an organization that's truly fit for the future Gary Hamel bestselling author of The Future of Management
