is an ideal program for high school calculus courses that require the use of a graphing calculator The quality and quantity of
the exercises combined with interesting applications and innovative resources make teaching easier and help students
succeed The book achieves accessibility through careful writing and design including examples with detailed solutions that
begin and end on the same page which maximizes readability Similarly side by side solutions show algebraic graphical and
numerical representations of the mathematics and support a variety of learning styles A new chapter on probability and
statistics helps reinforce high school curriculums *Study and Solutions Guide: Precalculus Functions and Graphs: A*
