"...there are two ways to become wealthy: to create wealth or to take wealth away from others. The former adds to society. The latter typically subtracts from it, for in the process of taking it away, wealth gets destroyed. A monopolist who overcharges for his product takes away money from those whom he is overcharging and at the same time destroys value. To get his monopoly price, he has to restrict production."
Stiglitz, J.E. (2013). The price of inequality. London: Penguin.

Quote

Of the two ways to become wealthy creating wealth adds to society; whereas, taking wealth away from others, "typically subtracts from it, for in the process of taking it away, wealth gets destroyed" (Stiglitz, 2013:40).

Quoting Articles In A Paper:

You Can Publish Your Journal Article Gilbert C. Gee, 2023-11-27 You've completed your research and want to publish it in a peer-reviewed journal. Author Gilbert C. Gee is here to help sharing what he learned as a writer, reviewer, and Editor in Chief and calling on other journal editors to offer their advice. You Can Publish Your Journal Article will not only help you write your paper but more importantly be more likely to succeed in peer review. The book has four main premises: that writing involves a relationship between you and your readers and that your research joins an ongoing conversation in the field; that good writing is rewriting and revision is critical; that people who write daily are more productive than those who binge write; and finally that persistency wins, so don't give up when you get a rejection. With chapters offering practical advice on selecting the right journal, peer review, the methods section, displaying your data, writing the results and discussion sections, the book concludes with short essays from invited journal editors about how to avoid common mistakes and ensure success.

Citation Classics from Social Indicators Research Alex C. Michalos, 2006-01-28 Social Indicators Research, an International and Interdisciplinary Journal for Quality of Life Measurement, was founded by Alex C. Michalos and published its first issue in March 1974. It has been the leading journal for scholarly research in its field for over thirty years. This volume is published in celebration of that record of accomplishment. The 19 articles assembled here are a selection drawn from the 34,244 most frequently cited articles in the journal's history. An introductory essay written by Michalos explains the historical and scientific importance of each article in the development of social indicators or quality of life research. It provides a rare overview of the perceived scientific problems that researchers around the world addressed in the first three decades of exploration, as well as a view of some of the problems to be addressed in the future. A short essay describing the origins of the journal by its founder is also included. Anyone interested in having a single volume that contains some of the best research produced in this field will find this volume irresistible.
