Transformational Governance Beth Gazley, Katha Kissman, 2015-07-02 There has never been so much

pressure on nonprofit boards of directors to achieve a level of accountability that meets public and stakeholder expectations. Member serving association boards may be especially challenged by their more complex affiliate structures and a greater emphasis on representative governance. But what does the journey to good governance look like? Markedly different from existing board development books, this modern approach focuses less on the behaviors and qualities of high performing boards and more on the stages and processes that directors and their staff used to transform their boards. Based on research funded by the ASAE Foundation, the book fills a gap in the governance literature by emphasizing diagnosis and problem solving using the actual tools and activities implemented by 85 transformed associations. Combining the credibility of scholarly research with lively and compelling stories, tools and teachable moments, this book is designed to help associations and other nonprofit organizations achieve the entire journey to good governance from first to last steps.

Stop the Nonprofit Board Blame Game Hardy Smith, 2022-01-04 Why don't board members do what they're supposed to do? Board members not meeting performance expectations is one of the most challenging issues faced by nonprofit organizations and causes considerable frustration among nonprofit leaders and they usually place the blame on board members. However, much of what has been written on this topic is based on opinions and experiences of staff professionals with solutions focused on more training of the board members. Yet the problem persists. So whatever advice that has been offered hasn't worked. This book is different. Author and expert leadership consultant Hardy Smith shows that most difficulties contributing to boards not performing as desired are self-inflicted by leaders who repeat flawed practices that could be avoided. As a result, Smith provides what numerous other books on this topic have not truly effective solutions. **Stop the Nonprofit Board Blame Game** uses feedback from a wide variety of board members to reveal their unique perspectives, explains why performance problems exist, identifies realistic results oriented solutions, shares proven how-tos for taking action. This book is the only guide you need to improve the engagement and effectiveness of your board and strengthen relationships. It will constructively transform your organization.
