Anderson, Robin White, 2011-03-29 In 1994 Interface founder and chairman Ray Anderson set an audacious goal for his commercial carpet company to take nothing from the earth that can't be replaced by the earth Now Anderson leads the way forward and challenges all of industry to share that goal with *Business Lessons from a Radical Industrialist* The Interface story is a compelling one in 1994 making carpets was a toxic petroleum based process releasing immense amounts of air and water pollution and creating tons of waste Fifteen years after Anderson's call for change Interface has cut greenhouse gas emissions by 82% cut fossil fuel consumption by 60% cut waste by 66% cut water use by 75% invented and patented new machines materials and manufacturing processes increased sales by 66% doubled earnings and raised profit margins With practical ideas and measurable outcomes that every business can use Anderson shows that profit and sustainability are not mutually exclusive businesses can improve their bottom lines and do right by the earth Ray Anderson is featured in the film *So Right So Smart* which takes a behind the scenes look at how his leadership transformed Interface into a company with a sustainable business practices that made it more profitable than it was before

**Student Power! The Radical Days of the English Universities** Esmée Sinéad Hanna, 2014-01-16 *Student Power The Radical days of the English Universities* is an original contribution to the exploration and understanding of the radicality of the English student movement of the 1960s This movement was significant and widespread within English universities and occurred within the context of global student unrest The research on which this book is founded brings together two key data sources documents and oral history interviews presenting previously unpublished and original research to detail the events of this important social movement The book's central focus is the exploration of the key events within the movement detailing the type of actions that occurred across the duration of the movement so as to paint a picture of what the movement was like Key insight is offered from those who were involved in the protests giving a voice to those who know first hand what it was like to be a student at the height of the Swinging Sixties The significance of the 1960s student movement is also refocused through a contemporary lens In light of recent renewals in student activism comparisons and contrasts between the current situation of students within the higher education system in England and those who were students in the Sixties are discussed By exploring what can be learnt from students of the Sixties focusing upon how they were able to create and sustain a social movement of this scale we can understand the constraints and influences on political action by students today This book is therefore relevant not only to our understanding of the past but also for thinking about social movements in the present The book therefore offers a rich narrative of a fascinating social movement telling previously untold stories of what it was like to be part of the biggest rebellion of English students at the height of the dramatic decade of change that was the Sixties This title will be of interest

What if your autoimmune illness isn t a permanent defect but a sacred signal Autoimmune disease is rising at an alarming rate Hashimoto s lupus psoriasis rheumatoid arthritis multiple sclerosis inflammatory bowel disease these conditions now affect tens of millions with conventional medicine offering lifelong suppression not real solutions This book proposes something radically different That autoimmune illness is not a random malfunction but a breakdown in rhythm clarity and communication between the body the soul and time itself Fasting Against Autoimmune Disease presents a groundbreaking framework where fasting is not starvation but sacred repair Rooted in the science of immunology autophagy gut restoration and mitochondrial healing yet guided by ancient Daoist wisdom this book reframes illness as an intelligent response to overload distortion and forgotten selfhood You ll learn Why autoimmune illness often arises in those who carry too much feel too much and endure too long How modern life fragments circadian immunological and hormonal balance Why fasting resets the immune system through rhythmic silence not aggression The truth about the gut immune brain axis and how fasting repairs the terrain Why autoimmune flares may be your body s cry to remember who you are Inside are clear practical fasting protocols for Hashimoto s hypothyroidism and hormone dysregulation Lupus rheumatoid arthritis and inflammatory pain Psoriasis eczema and skin based flares Crohn s ulcerative colitis and leaky gut Long COVID post viral fatigue and immune confusion And sensitive cases needing adaptive gentle approaches You ll also discover How Shen spirit and Wei Qi immune field are connected Why emotional boundaries matter as much as dietary ones How to reintroduce food without collapsing your healing Breathwork qi gong and rituals for immune harmony How to live the immune Dao the daily rhythm of sovereignty Whether you re newly diagnosed or decades deep in autoimmune struggle this book will help you see your condition not as a curse to fight but as a path to walk with clarity power and peace This is not a book about what to fear It s a book about what to remember From the author of the Fasting Against series including Fasting Against Cancer Fasting Against Diabetes and Fasting Against Heart Disease this volume brings together ancient medicine modern science and spiritual insight to offer a new path forward one that begins in emptiness and leads back to wholeness To explore all titles

amazon.ca stores Laing Z Matthews author B0F3Q7N83G      Rules for Radical Christians Nelson R Foster, 2019-10-04 This book is a brutal expose of religion's failure to keep and preserve our Godly American culture and the unconventional answer to restore the cultural soul that is rightfully ours to maintain. It exposes the history and spiritual influences behind the decline and the process Christians can follow to reverse that decline. Liberals may claim that they are godless Atheists but the truth is they are following the doctrines of Lucifer and following a game plan taught by followers of Lucifer. We are losing a spiritual battle by fighting with the tools of the flesh: logic, reason, emotion, science, and the law. We are bound to lose. We need to learn the rules and methods that have been proven to work spiritually against a ruthless spiritual opponent. Liberals know full well that they are fighting for the soul of our nation. We need to realize that the soul they are fighting for is the complete corruption and loss of the Godly soul our founding fathers tried to establish for our nation. It not only presents the problem but also provides the solution to our problem and the promise that the problem of ungodliness in our culture can be reversed. Godliness can be restored. We are also fighting for the soul of our nation. It is NOT the same soul that the Liberals are trying to preserve. They have corrupted our nation by deception. We can restore the national soul they corrupted with the truth.

Radical Discipleship Jennifer M. McBride, 2016-12-15 Reminiscent of Bonhoeffer's Discipleship, Jennifer McBride's *Radical Discipleship* utilizes the liturgical seasons as a framework for engaging the social evils of mass incarceration, capital punishment, and homelessness, arguing that to be faithful to the gospel, Christians must become disciples of not simply believers in Jesus. The book arises out of McBride's extensive experience teaching theology in a women's prison while participating in a residential Christian activist and worshipping community. Arguing that disciples must take responsibility for the social evils that bar beloved community, Martin Luther King's term for a just social order, the promised kingdom of God, McBride calls for a dual commitment to the works of mercy and the struggle for justice. This work seeks to form readers into an understanding of the social and political character of the good news proclaimed in the Gospels. Organically connecting liturgy with activism and theological reflection, McBride argues that discipleship requires that privileged Christians place their bodies in spaces of social struggle and distress to reduce the distance between themselves and those who suffer injustice and stand in solidarity with those whom society deems guilty, despises, and rejects, which makes discipleship radical as Christians take seriously the Jesus of the Gospels.      Mona Toncheff, Timothy D. *Red Scare* Robert K. Murray, 1955-01-01. *Red Scare* was first published in 1955. Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions. Few periods in American history have been so dramatic, so fraught with mystery or so bristling with fear and hysteria as were the days of the great Red Scare that followed World War I. For sheer excitement it would be difficult to find a more absorbing tale than the one told here. The famous Palmer raids of that era are still remembered as one of the most fantastic miscarriages of justice ever perpetrated upon the nation. The violent labor strife still makes those who lived through it shudder as they recall the Seattle general strike and Boston police strike, the great coal and steel strikes and the bomb plots, shootings and riots that accompanied these conflicts. But exciting as the story may be, it has far greater significance than merely that of a lively tale. For just as America was swept by a wave of unreasoning fear and was swayed

by sensational propaganda in those days so are we being tormented by similar tensions in the present climate of the cold war The objective analysis of the great Red Scare which Mr Murray provides should go a long way toward helping us to avert some of the tragic consequences that the nation suffered a generation ago before hysteria and fear had finally run their course The author traces the roots of the phenomenon relates the outstanding events of the Scare and evaluates the significant effects of the hysteria upon subsequent American life

**Strategic Innovation in Russia** Taco C.R. van Someren, Shuhua van Someren-Wang, 2016-09-26 This book presents a radically different approach to innovation aimed at creating new growth cycles for the Russian economy To better grasp the opportunities hidden behind worldwide megatrends such as the growing economic prosperity of Asian countries and the importance of the internet based economy the authors argue for a reinvention of Russia s innovation strategy Instead of a purely technology driven approach the authors illustrate how the principles of strategic innovation help develop institutional and non technical innovation as well as new forms of leadership and entrepreneurship within the Russian business culture The authors also discuss the impact of strategic innovation on corporate strategies innovation and economic policy as well as academic research and development agendas The book also sheds new light on how cooperation between Russia and the EU the US and China in the area of innovation can be of mutual benefit

**Oxygen/Nitrogen Radicals: Cell Injury and Disease** Val Vallyathan, Vince Castranova, Xianglin Shi, 2002-07-31 A veritable mountain of literature has been published showing the causal relationship of reactive oxygen nitrogen species in human disease conditions and there has been an explosion in the understanding of oxidative stress the protective role of antioxidants and molecular events involved in the regulation of transcription editing and translation of key events leading to disease processes Strategies need to be developed for prevention of diseases by allowing scientists and clinicians to obtain information on new and emerging advances The molecular mechanisms involved in several diseases including Alzheimer s disease atherosclerosis diabetes arthritis and Parkinson s disease as well as disorders of the eye skin cardiac and pulmonary systems are discussed in this volume along with scientific evidence supporting the value of dietary supplementation with antioxidants in the prevention of cellular damage leading to chronic disease Special in vivo techniques are also discussed at length along with the role of molecular studies in human risk assessment
