Salgán,2020-06-10 Writing this Tango Course is both an obligation and a great pleasure for me It is an obligation because I  
would like to contribute something of all the things that I owe in return as an appreciation of having been fortunate enough  
to educate myself in the Orchestras where I learned to play Tango The Orchestras were a crucible where the ideas of its  
members and or other creative musicians experimented played and came together to create playing styles rhythmic forms etc  
These contributions were what took the Tango little by little to such a high musical level Nowadays it is not at all easy to  
belong to an Orchestra considering the fact that so few can subsist This makes it more difficult for those who want to have  
careers in Tango music to acquire the vast knowledge necessary for playing and interpreting it Let us not forget that the  
Orchestras have always been the best schools for such an apprenticeship It is also a great pleasure to be able to transmit and  
share that what I have learned trying always not to leave anything out that is my real intention by relying on my memory  
which fortunately still helps me I never intended for my conclusions to be taken as the absolute truth nor wanted to win  
something over anyone in anything This course just shows my position and the ideas with which I have always worked We  
will deal here with the Tango in versions which in my understanding are genuine manifestations of itself I love the Tango  
because I love good music and I got into it to learn to play it not to change it If my versions and arrangements have  
something different about them it is only because this is my language and I have expressed myself through it I will also talk  
about the incorporation of new contributions and changes as long as they are authentic within the genre The many streams  
of opinion may or may not coincide with what will be said in this course Considering the broadness of the theme and the  
flexibility which should govern artistic creation other concepts may prove constructive as well I sincerely hope that this  
course will be useful to someone Horacio Salg n      **The Bankers' Directory and Collection Guide** ,      **Leahy's**
