

## **Know your rock.**

Your PET ROCK didn't come out of any old rock pile, you know! There is nothing common about genuine, pedigreed PET ROCKS. They descend from a long line of famous rocks. Their ancestors can be found amongst the rubble of the pyramids; the cobblestone streets of ancient European cities; the Great Wall of China. PET ROCKS descend in one unbroken line that can be traced back to the beginning of time and even farther.

PET ROCKS are found with the aid of a specially-trained Rock Hound. They are then examined for congenital defects prior to intelligence evaluations. Only rocks that have demonstrated a strong capacity for learning and obedience are allowed to wear the name PET ROCK. Upon passing initial tests they are prepared for

shipping, packed into their little boxes, and sent throughout the world to anxious owners.

Testa, 2009 One Man's Planet is a slightly off centered geologist's introduction to how politics pop culture and the earth sciences mix it up every day in all of our lives A humorous look at a myriad of issue that grace the news and drive political debates from local councils to international discourse One Man's Planet picks apart the rhetoric on all sides of these debates to look at how the science describes the issue often to the nakedness of the opposing parties Tackling topics like climate energy water and hazards Stephen Testa channels Beanie Babies Mad Max and Shakespeare among others to examine the latest scientific understanding of these issues Author Stephen Testa weaves science personalities pop culture and politics into a very informative and entertaining tapestry on the planet today and the planet's tomorrow Come tour the Earth with Testa as your guide
