**Beyond Schooling** David H. Hargreaves, 2019-04-11 Provocative and engagingly written Beyond Schooling offers a challenging perspective on State schooling in England and the unrelenting increase in centralisation from the late 1960s until the present day Exploring how the education of our children and young people should be recaptured from the State as the country moves into a precarious future this book argues that any fundamental reconsideration of schooling has much to learn from an anarchist analysis introduces readers unfamiliar with anarchism to the main themes of this political philosophy and practice and their relationship to the political left and right shows how an anarchist perspective on education raises deep

issues about the community and the use of power questions the notions of full time schooling and age grading alongside conventional conceptions of the teaching profession and the potential educational role of parents as work declines or disappears In its original reflections on the state of contemporary schooling and the paths to future reform *Beyond Schooling* is a must read for anyone seeking a new vision for the future of education and schooling [Equality and Freedom in Rancière and Foucault](#) Stuart Blaney,2024-12-12 Responding to the increasing need for new and peaceful forms of emancipation Stuart Blaney offers a unique solution in the synergy between two pioneering strands of continental philosophy Michael Foucault s ideas on freedom and Jacques Ranci re s ideas on equality Building a dialogue between these two thinkers Blaney presents new perspectives on their work and a clear picture that emancipation comes from everyday practices rather than any particular movement or revolution In exploring these combined views of equality and freedom Blaney draws on some of the central facets of both concepts including revolution disagreement care for the self free speech and stoicism To put these ideas into a practical framework of real lived experience we are introduced to the figure of Louis Gabriel Gauny the 19th century worker poet and self confessed plebeian philosopher Gauny is a nexus for Ranci re s and Foucault s ideas his life exemplifying a dual mode of existence in between conformity and political revolution This lived philosophy of equality and freedom shows the strong synergy between the two concepts with one reinforcing the other and strengthening their efficacy as forms of emancipatory practice **Foucault's Heidegger** Timothy Rayner,2007-11-15 A new and important study of the relationship between two key thinkers of the twentieth century **Foucauldian Interpretation of Modern Law** Martire Jacopo Martire,2017-07-07 This book addresses a surprisingly overlooked Foucauldian conundrum what is the logical relationship between modern law and power Jacopo Martire investigates the development of modern law in conjunction with what Foucault termed biopolitical forms of power He gives you a much needed genealogical analysis of the modern legal phenomenon opening new avenues for Foucauldian approaches to law *Ethics as a Weapon of War* James Eastwood,2017-09-21 What role does ethics play in modern day warfare Is it possible for ethics and militarism to exist hand in hand James Eastwood examines the Israeli military and its claim to be the most moral army in the world This claim has been strongly contested by human rights bodies and international institutions in their analysis of recent military engagements in the West Bank Gaza and Lebanon Yet at the same time many in Israel believe this claim including the general public military personnel and politicians Compiled from extensive research including interviews with soldiers Eastwood unpacks the ethical pedagogy of the Israeli military as well as soldier led activism which voices a moral critique and argues that the belief in moral warfare doesn t exist separately from the growing violence of Israel s occupation This book is ideal for those interested in military ethics and Israeli politics and provides crucial in depth analysis for students and researchers alike [Art Psychotherapy & Narrative Therapy: An Account of Practitioner Research](#) Sheridan Linnell,2010 This book is a personal political and philosophical exploration of doing both therapy and research an enquiry into how the

process of therapy shapes the therapist as well as the client and how the researcher is shaped by her research A guiding theme is

Handbook on Governmentality William Walters, Martina Tazzioli, 2023-01-20 The Handbook on Governmentality discusses the development of an interdisciplinary field of research focusing on Michel Foucault's post-foundationalist concept of governmentality and the ways it has been used to write genealogies of modern states the governance of societal problems and the governance of the self

Governing the Global Polity Iver B. Neumann, Ole Jacob Sending, 2010-07 Governmentality offers an explanation for the 21st century global web of power relations

*Criminology, Deviance, and the Silver Screen* J. Frauley, 2010-12-20 This text argues for the usefulness of fictional realities for criminological theorizing and analysis It illustrates that a creative and critical social scientific practice requires craft norms rather than commercial norms that threaten to completely colonize higher education

**Spaces of Colonialism** Stephen Legg, 2008-09-15 Examines the residential policed and infrastructural landscapes of New and Old Delhi under British Rule The first book of its kind to present a comparative history of New and Old Delhi Draws on the governmentality theories and methodologies presented in Michel Foucault's lecture courses Looks at problems of social and racial segregation the policing of the cities and biopolitical needs in urban settings Undertakes a critique of colonial governmentality on the basis of the lived spaces of everyday life

*Picturing Toronto* Sarah Bassnett, 2022-03-30 In 1911 when Arthur Goss was hired as Toronto's first official photographer the city was at a critical juncture Industry expansion and population growth produced pressing concerns about housing shortages sanitation and the health and welfare of citizens Dispelling popular misconceptions *Picturing Toronto* demonstrates that Goss and other photographers did not simply document the changing conditions of urban life their photography contributed to the development of modern Toronto and shaped its inhabitants Drawing on archival sources from the early twentieth century Sarah Bassnett investigates how a range of groups including the municipal government social reformers and the press used photography to reconfigure the urban environment and constitute liberal subjects Through a series of case studies including the construction of the Bloor Viaduct civic beautification plans urban reform in the Ward immigration and citizenship and Goss's portrait photography Bassnett exposes how photographs were at the heart of debates over what the city should look like how it should operate and under what conditions it was appropriate for people to live This lavishly illustrated book is the first study to treat images as vital elements that shaped Toronto's social and political history Interdisciplinary in its approach *Picturing Toronto* displays the complex entanglements between photography and urban modernity

*An Urban Politics of Climate Change* Harriet Bulkeley, Vanesa Broto, Gareth Edwards, 2014-10-17 The confluence of global climate change growing levels of energy consumption and rapid urbanization has led the international policy community to regard urban responses to climate change as an urgent agenda World Bank 2010 The contribution of cities to rising levels of greenhouse gas emissions coupled with concerns about the vulnerability of urban places and communities to the impacts of climate change have led to a relatively recent and rapidly proliferating interest amongst both

academic and policy communities in how cities might be able to respond to mitigation and adaptation. Attention has focused on the potential for municipal authorities to develop policy and plans that can address these twin issues and the challenges of capacity, resource and politics that have been encountered. While this literature has captured some of the essential means through which the urban response to climate change is being forged, it has failed to take account of the multiple sites and spaces of climate change response that are emerging in cities off plan. *An Urban Politics of Climate Change* provides the first account of urban responses to climate change that moves beyond the boundary of municipal institutions to critically examine the governing of climate change in the city as a matter of both public and private authority and to engage with the ways in which this is bound up with the politics and practices of urban infrastructure. The book draws on cases from multiple cities in both developed and emerging economies to providing new insight into the potential and limitations of urban responses to climate change as well as new conceptual direction for our understanding of the politics of environmental governance.

*An Archaeology of Educational Evaluation* Emiliano Grimaldi, 2019-08-16 *An Archaeology of Educational Evaluation: Epistemological Spaces and Political Paradoxes* outlines the epistemology of the theories and models that are currently employed to evaluate educational systems, education policy, educational professionals and students learning. It discusses how those theories and models find their epistemological conditions of possibility in a specific set of conceptual transferences from mathematics and statistics, political economy, biology and the study of language. The book critically engages with the epistemic dimension of contemporary educational evaluation and is of theoretical and methodological interest. It uses Foucauldian archaeology as a problematising method of inquiry within the wider framework of governmentality studies. It goes beyond a mere critique of the contemporary obsession for evaluation and attempts to replace it with the opening of a free space where the search for a mode of being, acting and thinking in education is not over-determined by the tyranny of improvement. This book will appeal to academics, researchers and postgraduate students in the fields of educational philosophy, education policy and social science.
