Sullivan-González, 2014-01-29 Douglass Sullivan Gonzalez examines the influence of religion on the development of nationalism in Guatemala during the period 1821-1871 focusing on the relationship between Rafael Carrera and the Guatemalan Catholic Church He illustrates the peculiar and fascinating blend of religious fervor popular power and caudillo politics that inspired a multiethnic and multiclass alliance to defend the Guatemalan nation in the mid nineteenth century Led by the military strongman Rafael Carrera an unlikely coalition of mestizos Indians and creoles whites born in the

Americas overcame a devastating civil war in the late 1840s and withstood two threats 1851 and 1863 from neighboring Honduras and El Salvador that aimed at reintegrating conservative Guatemala into a liberal federation of Central American nations Sullivan Gonzalez shows that religious discourse and ritual were crucial to the successful construction and defense of independent Guatemala Sermons commemorating independence from Spain developed a covenantal theology that affirmed divine protection if the Guatemalan people embraced Catholicism Sullivan Gonzalez examines the extent to which this religious and nationalist discourse was popularly appropriated Recently opened archives of the Guatemalan Catholic Church revealed that the largely mestizo population of the central and eastern highlands responded favorably to the church's message Records indicate that Carrera depended upon the clerics ability to pacify the rebellious inhabitants during Guatemala's civil war 1847-1851 and to rally them to Guatemala's defense against foreign invaders Though hostile to whites and mestizos the majority indigenous population of the western highlands identified with Carrera as their liberator Their admiration for and loyalty to Carrera allowed them a territory that far exceeded their own social space Though populist and antidemocratic the historic legacy of the Carrera years is the Guatemalan nation Sullivan Gonzalez details how theological discourse popular claims emerging from mestizo and Indian communities and the caudillo's ability to finesse his enemies enabled Carrera to bring together divergent and contradictory interests to bind many nations into one

Wright,2021-12-12 Race Power and Political Emergence in Memphis examines black political behavior and empowerment strategies in the city of Memphis Each chapter of the text focuses on three themes mobilization emergence and incorporation By analyzing the effects of race on black political development in Memphis scholars will be able to examine broader questions about its effects in other cities How do political machines use substantial black electorates to their advantage What forms of protest do black communities conduct to rebel against machine rule What primary mobilization tactics have black

citizens used during the different periods of their political development Why do blacks mobilize more quickly in some cities In cities with large and predominantly black populations what elements prevent black candidates from winning citywide races What constraints do newly elected black mayors face What benefits do black citizens gain from their representation After a predominantly black governing coalition is elected what obstacles remain Can black citizens translate proportional representation into strong political incorporation How much power can African Americans realistically expect to gain in cities This book is the most comprehensive case study of the city's political scene written to date The text primarily shows that white racism is not the only obstacle to black political development Black citizens can have population majorities but lose elections for other reasons Their ability to win elections and gain full incorporation depends heavily on whether they minimize internal conflict and establish coalitions with middle class citizens and the business establishment
