This manual provides general directions for performing service with tested, effective techniques. Following them will help assure reliability.

There are numerous variations in procedure, techniques, tools and parts for servicing vehicles, as well as in the skill of the individual doing the work. This manual cannot possibly anticipate all such variations and provide advice or cautions as to each. Accordingly, anyone who departs from the instructions provided in this manual must first establish that they compromise neither their personal safety nor the vehicle integrity by their choice of methods, tools or parts.

A NOTE calls attention to unique, additional or essential information related to the subject procedure. A NOTICE or CAUTION identifies a hazard that could damage the vehicle or property. A WARNING identifies a hazard that could result in personal injury or death to yourself or others. Some general WARNINGS that you should follow when you work on a vehicle are listed below.
