*A Manual of Sample Police Operating Procedures* Pennsylvania. Dept. of Community Affairs, Karen A. Withers, 1989

**The PR-24, Police Baton** Richard R. Starrett, 1976 The PR 24 police baton helps to bridge the wide gap between the final force of the firearm and the ineffective or abusive use of the conventional police baton Used properly this new baton can defend without destroying control without crushing This training manual provides instructions for using this new baton The objective of this manual is to provide instruction for as many instinctive techniques as the average law enforcement officer will need in order to defend himself and to neutralize an adversary in any given situation which calls for something less than the use of a firearm

*The pen, your mighty self defense friend* Joseph Truncale, 2015-03-19 This book will show you how a simple writing tool can easily be turned into an effective self defense weapon with just a little knowledge practice determination and imagination This is to my knowledge the first manual ever written that deals primarily with the use of the pen as a self protection tool Some of the areas this book will cover include choosing the best pen for self defense carrying methods how to grip the pen for most effectiveness the right to self defense and the law vulnerable areas of the body and specific techniques and tactics to use the pen for self defense When you finish this text you will be more aware and confident in your ability to defend yourself using a simple pen or pencil The key to defending yourself must always begin with the realization that your own body has numerous areas that can be used as a self defense tool

**Pro-Systems: Baton Reverse Grip System** Joseph Truncale, 2015-03-14 This baton manual takes a different approach on how to employ the standard straight police baton Whether you carry the expandable type of baton or

the standard rigid model this text will provide a different perspective on how to use the baton for control and self defense The Baton Reverse Grip System BRGS was not created to take the place of any other baton system It was designated to increase an officer s options when employing the law rnforcement straight baton in arrest and control situations *For Security Personnel, DEFENSIVE BATON, 2020* Mürsel Sevindik,2020-04-17 This book covers Defensive Baton issues for law enforcement officer The goal is for the officers to understand and demonstrate the tactical fundamentals of the baton in an operational setting and its proper use as an intermediate impact weapon One of the major dilemmas facing law enforcement today is the continually increasing number of assaults on police officers as they perform their duties How can the officer respond to this critical situation without resorting to deadly force Modern law enforcement tool has been developed to increase officers ability to protect themselves particularly in those cases not justifying the use of deadly force That tool is the baton The ability to use force lawfully against the public is the primary factor which distinguishes the police from the rest of society The police service is unique in society as they are the only civil organization that has been given the authority to use force As a result of this responsibility the use of force by the police comes under close scrutiny by both the public and the courts The baton can be utilized when empty hand techniques are not effective A trained officer who is proficient in the use of the baton is better able to protect himself and is less likely to resort to the use of his firearm The main purpose of the baton is to stun or temporarily disable rather than cause permanent injury The baton is not designed as a lethal weapon and is not an instrument of punishment It is to be used in a skillful manner to counter or stop an aggressive subject The techniques shown in this booklet has been universally accepted and are defensible in court They are designed to work efficiently for all officers male female small large fit and the less fit Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement

**DEFENCE and INTERVENTION -2- (Weapon Retention and Disarming, Handcuffing, Conducting Suspect Searches, Defensive Baton)** Mürsel Sevindik,2020-04-25 This book covers Weapon Retention and Gun Disarming Handcuffing Conducting Suspect Searches and Defensive Baton subjects for law enforcement officer In some close encounters a suspect may try to

grab the officer's sidearm. Loss of the officer's gun could mean the loss of his/her life. The officer or civilians may be killed or injured by offenders who take and use an officer's firearm. Officers must develop a defensive awareness that their weapon can be snatched. Handcuffs are temporary restraining devices designed to control the movements of a subject. However, they do not entirely immobilize a suspect. Its proper use and application is crucial for the safety of the officer, subject, and public. Body searching is a vague topic. It is a careful, systematic examination of the suspect at the scene of a crime or immediately after apprehension. Failure to conduct a proper search could cost an officer's or civilian's life. Modern law enforcement tool baton has been developed to increase officers' ability to protect themselves, particularly in those cases not justifying the use of deadly force. A trained officer who is proficient in the use of the baton is better able to protect himself and is less likely to resort to the use of his firearm. Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement. For Security Personnel, HANDCUFFING, 2020 Mürsel Sevindik, 2020-04-15

This book covers Handcuffing issues for law enforcement officer. The goal is to understand and be able to perform proper techniques of using handcuffs. Handcuffs are temporary restraining devices designed to control the movements of a subject. Officers may routinely use handcuffs to control, restrain, and transport persons. Restraining devices will be applied properly and in accordance with training received so as to minimize the risk of unnecessary injury. The design of handcuffs ensures that the subject's movements are controlled to reduce the risk of injury to the police officer, members of the public, and the subject himself. The most common types of handcuffs used in law enforcement today are the traditional and hinged variety. In addition, officers also use plastic cuffs in some situations. Handcuffs do not entirely immobilize a suspect. Regardless of the type used, it is imperative that officers be aware that the police style handcuff is a temporary restraining device and that its proper use and application is crucial for the safety of the officer and subject. Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement. For Security Personnel, HARD EMPTY HAND CONTROL, 2020 Mürsel Sevindik, 2020-04-14

This book covers Hard Empty Hand Control issues for law enforcement officer. The goal is to provide police officers with an understanding of the principles of Hard Empty Hand Control techniques. Hard Empty Hand Control techniques are defined as striking techniques. These techniques are used to control active aggression with empty hands and feet when the intermediate use of weapons is justified but are not tactically available. The term hard is descriptive of the nature of the technique. Hard empty hand strikes are always defensive, not offensive. These techniques are taught to protect lives from immediate danger. All hard empty hand control techniques are basic in nature, however, they address non-lethal use of force situations and are generally reliable and effective when properly utilized. Police officers should learn and demonstrate knowledge of the striking areas as well as methods of striking. When these techniques become necessary, loud, clear, repetitive verbal commands are an important aspect of the control process. The subject needs to know what the officer desires him/her to do. In addition, verbal and physical de-escalation is always

preferred and should be attempted if applicable In training safety is paramount Perfect practice makes perfect Proper technique is more important than the speed of technique application Proficiency will increase the speed proportionally Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement

**Pro-Systems: The Basic Use of 5 Weapons** Joseph Truncala,2015-03-14 Besides the body's natural weapons we also emphasize how to use five basic weapons that can relate to numerous other common items for self defense purposes They include the following The Short Stick the Straight Stick Straight Baton the Side Handle PR 24 Baton the Knife and the Gun are the primary weapons in the Pro Systems Combatives program

**For Security Personnel, SOFT EMPTY HAND CONTROL, 2020** Mürsel Sevindik,2020-04-14 This book covers Soft Empty Hand Control issues for law enforcement officer The goal is to demonstrate to officers the understanding of the principles and appropriate use of Soft Empty Hand Control techniques Law Enforcement officers are authorized to use a range of force options to preserve the peace prevent crimes maintain order and apprehend suspects Soft empty hand techniques are the first option of physical response used to restrain a person who is resisting By developing a high degree of proficiency with soft empty hand techniques the officer will be able to respond in a more effective manner with a minimal amount of force A police officer experiences different kinds of adverse situations while performing his/her duty Sometimes his/her own life may be threatened due to a suspect's actions Therefore it is essential for the officer to know defensive tactics to protect him/her and to control adverse situations In modern society police have different responsibilities such as crime investigation providing security crime control etc Therefore the officer must be aware of special tactics by which he/she can defend him/herself against stabbing grabbing pushing kicking using sharp and dangerous weapons and firearms Within a fraction of a second a police officer must be able to react properly otherwise it may prove to be a fatal situation Every officer must be aware of defensive tactics and should be able to apply them effectively whenever required Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement

striking techniques They are always defensive not offensive These techniques are used to control active aggression with empty hands and feet when the intermediate use of weapons is justified but are not tactically available Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement *For Security Personnel, OFFICER SURVIVAL SKILLS, 2020* Mursel Sevindik,2020-04-05 This book covers Officer Survival Skills issues for law enforcement officer The goal is to develop the law enforcement officer s understanding of officer survival for the safe and efficient performance of their duty The majority of police officers duties become routine though the potential for danger is always present The duties of the officer require them to enforce laws and to control the illegal actions of certain citizens Survival techniques if properly applied provide the officer an opportunity to overcome the resistive behavior of subjects These techniques also provide officers with self confidence which is needed to win When an officer uses force peers the public the media the government and the world review that actions If the officer applies inappropriate force it reflects poorly on the individual and gives a non professional appearance to the entire force The officer is subject to legal limitations When the officer is faced with a violent situation it is required that he make decisions in a fraction of a second He may have to justify his actions in court Therefore proper defensive tactics training provides the officer with the tools required not only to apply the proper techniques but also to decide the proper level of force necessary to overcome resistance This will obviously enhance officer survivability insure proper performance during the situation and justification in court Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement
