Smart Goals For Instructional Coaches:

The Definitive Guide to Instructional Coaching Jim Knight, 2021-11-05 Even under ideal conditions teaching is tough work. Facing unrelenting pressure from administrators and parents and caught in a race against time to improve student outcomes, educators can easily become discouraged or worse, burn out completely without a robust coaching system in place to support them. For more than 20 years, perfecting such a system has been the paramount objective of best-selling author and coaching guru Jim Knight and his team of researchers at the Instructional Coaching Group (ICG). In *The Definitive Guide to Instructional Coaching*, Knight offers a blueprint for establishing, administering, and assessing an instructional coaching program laser-focused on every educator's ultimate goal: the academic success of students. Organized around ICG's seven Success Factors for great instructional coaching, this book offers an in-depth guide to the Impact Cycle, ICG's research-based and field-tested model for coaching teachers through issues that matter most to them. Detailed guidance on how to create a playbook of instructional strategies to share with collaborating teachers and how to model those strategies under different conditions. Practical advice on preparing for and engaging in substantive, reflective, and teacher-centered coaching conversations. Best practices for gathering, analyzing, and responding to data for improved teaching and learning, and real-life anecdotes and testimonies from educators and coaches who have reaped the benefits of the Impact Cycle in a diverse array of schools. In addition, each chapter of the book contains a learning map to help orient you and a list of valuable additional resources to complement the text. Whether you're new to coaching or well-versed in the practice, *The Definitive Guide to Instructional Coaching* will no doubt prove a cornerstone of your coaching library for years to come.

The IC Toolkit Jim Knight, Jessica Wise, Michelle Harris, Amy Musante, 2024-10-10 Refine the art and craft of instructional coaching. For more than 25 years, Jim Knight and his team at the Instructional Coaching Group have been studying what excellence in instructional coaching looks and sounds like. Their findings, organized around 7 Success Factors for instructional coaches and shared via books, articles, and workshops, have helped many instructional coaches around the world to increase teacher effectiveness and improve outcomes for students. Bringing together for the first time a wealth of resources and practical tools, *The IC Toolkit* is designed to guide instructional coaches either individually or preferably collectively through a 36-week journey of practice, reflection, and learning. For instructional coaches who want to improve and leaders who want to set up meaningful learning experiences, the book provides concrete tools including activities, checklists, case studies, and videos that you can use every week. Additional features include one-page descriptions of each success factor, a needs assessment to gauge your instructional coaching proficiency in the 7 Success Factors, learning paths to guide your use of the resources and enable meaningful exploration of each success factor, end-of-chapter reflection questions. *The IC Toolkit* makes it possible for every instructional coach to become highly proficient in the Success Factors. When instructional coaches become highly proficient in their craft, we can see students, teachers, and systems flourish.
