Problem Book in Quantum Field Theory Voja Radovanovic, 2008-01-24 The Problem Book in Quantum Field Theory contains about 200 problems with solutions or hints that help students to improve their understanding and develop skills necessary for pursuing the subject. It deals with the Klein Gordon and Dirac equations, classical field theory, canonical quantization of scalar Dirac and electromagnetic fields, the processes in the lowest order of perturbation theory, renormalization and regularization. The solutions are presented in a systematic and complete manner. The material covered and the level of exposition make the book appropriate for graduate and undergraduate students in physics as well as for teachers and researchers. Gross, 2014-11-21 In the latest edition of this best-selling text, David Capuzzi and Douglas Gross, along with 24 experts in the field, provide a prevention intervention paradigm to address contemporary issues facing today's youth. Written from a systemic perspective, this book offers guidance in helping teens who are struggling with the complex challenges that can be brought on by peers, family members, and difficult social environments. Part 1 presents information on at-risk population identification, causal factors of problematic behaviors, and promotion of resiliency in youth. Part 2 examines the development of at-risk behaviors relating to dysfunctional family dynamics, low self-esteem, depression, mood disorders, and stress and trauma. Part 3 explores the behaviors most often identified as placing youth at risk, such as eating disorders, suicidal preoccupation, teen sexuality, gang membership, school violence, substance abuse, homelessness, school dropout, and bullying, as well as the unique strengths of and stressors faced by multiracial and LGBTQ youth. Case studies illustrate prevention efforts from individual, family, school, and community perspectives, and text sidebars create greater reader self-awareness and enhance the understanding of the concepts, skills, and applications of the chapter material.
