getting stuck with a wannabe rock star who can't really teach you Or you could try YouTube but most of those videos go way too fast and they don't teach you the right way to play Too many people start with bad guitar lessons get frustrated and give up Forget about boring theory and repetitive exercises What you need is a solid guide that was made for beginners and taught by experts Using this book beginners can start playing songs right away through mastering the fundamentals in easy step by step lessons Go from knowing nothing about the guitar and learning to play songs everybody loves in just weeks Even if you've never touched a guitar before or have no musical knowledge In this book you will discover Chords That Will Allow You To Easily Play Millions Of Songs Common Challenges When Learning to Play the Guitar How to Overcome Them Music Theory Made Fun Easy How to Pick a Great Guitar for a Beginner avoid this mistake How to Tune Your Guitar Struggling With Strumming Learn The Best Exercises Create Fast Heavy Riffs Like Metallica With Power Chords Improvisation Tips That Will Take You From An Average To An Awesome Guitar Player Prevent Bad Habits Get Fast Results 8 Guitar Chords You Must Know Learn Funk Blues Rock Acoustic And Many More Styles From Guitar Legends and much much more Imagine being the star at the party where everyone loves you for your new musical talent Whether you've had dreams of becoming a rock star or you just want to learn to play your favorite songs for friends and family What are you waiting for Try it out Learn To Play The Guitar With This Book     *Play Rock Guitar -- Beginning Chords, Strums, and Riffs* Alex Nolan, Tim Quick, 2007 Designed for aspiring rock guitarists Learn practical skills that every rhythm guitarist should know     *Guitar Chords for Beginners* Gareth Evans, 2014-02-01 A very comprehensive book containing chords from the beginning stages and beyond Everything is very well explained with no stone left unturned I'd highly recommend it to anyone who's starting out with the guitar Nigel Elliott Guitarist Tutor N Ireland Guitar Chords for Beginners contains 65 different chords arranged in easy fingerings Technique Fretting hand technique for playing guitar chords is looked at in detail with diagrams Where necessary some chords are taught incrementally because taking on only the harder aspects of a chord's fingering first means our hand is freer to adjust Other chords are shown with different fingerings for you to choose which you prefer Playing guitar chords may seem like a contortion for the hands of the beginner so there is some basic guidance on stretching to keep the hands flexible Audio and More Each guitar chord has a downloadable audio example enabling you to hear if you have played it right or to hear what you need to work towards There is an introduction to moveable power chords and barre chords in which barre chords are shown as easier cut down versions of full barre chord shapes At the back of *Guitar Chords for Beginners* there is a list of suggested songs that contain chords from within the book Grab a copy today I like what's been put together The information covered in technical issues for beginners especially explaining the difference between chords on piano and guitar is great I think starting with the small position chords for C and G etc and building up to full position is also really important for beginners The picture diagrams of hand position is a nifty feature I know lots of beginners respond more to visuals and will often revert to looking at the hand pictures rather than the chord diagrams Also think the added audio clips

are a great feature so students can compare the sounds of their chords with the audio for reference There could be a couple of chord progressions at the end of each section Apart from the song suggestions at the end of the book and strumming patterns That would be an added feature that I think could work nicely although this would make for a larger book and it is only 1 99 for the eBook Otherwise I think what s been put together is great Anthony Bierman Bmus Hons Contemporary Jazz Guitar South Africa Looks fab I particularly like the different ways of playing the A chord The physical warm up exercises for flexibility are also good It is good that movable major and minor barre chords are shown as partial versions to make them initially easier and beginners might find extra interest where near the back of the book easy open versions of other more exotic chords are shown such as Dm maj7 the James Bond chord Campbell Murray RGT MU Registered Tutor Scotland
