

Powermac G4 Manual

David Pogue

Powermac G4 Manual:

Mac OS X: The Missing Manual, Tiger Edition David Pogue, 2005-07-12 You can set your watch to it As soon as Apple comes out with another version of Mac OS X David Pogue hits the streets with another meticulous Missing Manual to cover it with a wealth of detail The new Mac OS X 10.4 better known as Tiger is faster than its predecessors but nothing is too fast for Pogue and Mac OS X The Missing Manual There are many reasons why this is the most popular computer book of all time With its hallmark objectivity the Tiger Edition thoroughly explores the latest features to grace the Mac OS Which ones work well and which do not What should you look for This book tackles Spotlight an enhanced search feature that helps you find anything on your computer iChat AV for videoconferencing Automator for automating repetitive manual or batch tasks and the hundreds of smaller tweaks and changes good and bad that Apple's marketing never bothers to mention Mac OS X The Missing Manual Tiger Edition is the authoritative book that's ideal for every user including people coming to the Mac for the first time Our guide offers an ideal introduction that demystifies the Dock the unfamiliar Mac OS X folder structure and the entirely new Mail application There are also mini manuals on iLife applications such as iMovie iDVD and iPhoto those much heralded digital media programs and a tutorial for Safari Mac's own web browser And plenty more learn to configure Mac OS X using the System Preferences application keep your Mac secure with FileVault and learn about Tiger's enhanced Firewall capabilities If you're so inclined this Missing Manual also offers an easy introduction to the Terminal application for issuing basic Unix commands There's something new on practically every page and David Pogue brings his celebrated wit and expertise to every one of them Mac's brought a new cat to town and we have a great new way to tame it

Screen Design Manual Frank Thissen, 2003-09-11 The Screen Design Manual provides designers of interactive media with a practical working guide for preparing and presenting information that is suitable for both their target groups and the media they are using It highlights background information and relationships clarifying them with examples and encourages the further development of the language of digital media In addition to the basics of perception and learning psychology ergonomics communication theory imagery research and aesthetics the book also considers design navigation and orientation elements Guidelines and checklists along with the comprehensive design of the book support the transfer of information into practice Frank Thissen teaches multimedia didactics and information design at the University of Applied Sciences in Stuttgart For over 10 years he has been developing computer based training He has worked for international companies such as Siemens AG and SAP AG His research project explores the role of emotion in e learning www.frank-thissen.de Key Topics Interactive media Text for the screen Effective use of pictures Video animation and sound Screen layout Orientation and navigation Interaction Emotions and metamessages Intercultural communication

CSS: The Missing Manual David Sawyer McFarland, 2006-08-24 Web site design has grown up Unlike the old days when designers cobbled together chunky HTML bandwidth hogging graphics and a prayer to make their sites look good Cascading Style Sheets CSS now lets your inner

designer come out and play But CSS isn't just a tool to pretty up your site it's a reliable method for handling all kinds of presentation from fonts and colors to page layout CSS The Missing Manual clearly explains this powerful design language and how you can use it to build sparklingly new Web sites or refurbish old sites that are ready for an upgrade Like their counterparts in print page layout programs style sheets allow designers to apply typographic styles graphic enhancements and precise layout instructions to elements on a Web page Unfortunately due to CSS's complexity and the many challenges of building pages that work in all Web browsers most Web authors treat CSS as a kind of window dressing to spruce up the appearance of their sites Integrating CSS with a site's underlying HTML is hard work and often frustratingly complicated As a result many of the most powerful features of CSS are left untapped With this book beginners and Web building veterans alike can learn how to navigate the ins and outs of CSS and take complete control over their Web pages appearance Author David McFarland the bestselling author of O'Reilly's Dreamweaver The Missing Manual combines crystal clear explanations real world examples a dash of humor and dozens of step by step tutorials to show you ways to design sites with CSS that work consistently across browsers You'll learn how to Create HTML that's simpler uses less code is search engine friendly and works well with CSS Style text by changing fonts colors font sizes and adding borders Turn simple HTML links into complex and attractive navigation bars complete with CSS only rollover effects that add interactivity to your Web pages Style images to create effective photo galleries and special effects like CSS based drop shadows Make HTML forms look great without a lot of messy HTML Overcome the most hair pulling browser bugs so your Web pages work consistently from browser to browser Create complex layouts using CSS including multi column designs that don't require using old techniques like HTML tables Style Web pages for printing Unlike competing books this Missing Manual doesn't assume that everyone in the world only surfs the Web with Microsoft's Internet Explorer our book provides support for all major Web browsers and is one of the first books to thoroughly document the newly expanded CSS support in IE7 currently in beta release Want to learn how to turn humdrum Web sites into destinations that will capture reviewers and keep them longer Pick up CSS The Missing Manual and learn the real magic of this tool

[Office 2008 for Macintosh: The Missing Manual](#) Jim Elferdink, 2008-03-20 Still the top selling software suite for Mac users Microsoft Office has been improved and enhanced to take advantage of the latest Mac OS X features You'll find lots of new features in Office 2008 for Word Excel PowerPoint and Entourage but not a page of printed instructions to guide you through the changes Office 2008 for Macintosh The Missing Manual gives you the friendly thorough introduction you need whether you're a beginner who can't do more than point and click or a power user who's ready to tackle a few advanced techniques To cover Word Excel PowerPoint and Entourage this guide gives you four superb books in one a separate section each for program You can manage your day and create professional looking documents spreadsheets and presentations in no time Office 2008 has been redesigned so that the windows toolbars and icons blend in better with your other Mac applications But there are still plenty of oddities That's why this Missing Manual isn't shy about

pointing out which features are gems in the rough and which are duds With it you ll learn how to Navigate the new user interface with its bigger and more graphic toolbars Use Word Excel PowerPoint and Entourage separately or together Keep track of appointments and manage daily priorities with the My Day feature Create newsletters flyers brochures and more with Word s Publishing Layout View Build financial documents like budgets and invoices with Excel s Ledger Sheets Get quick access to all document templates and graphics with the Elements Gallery Organize all of your Office projects using Entourage s Project Center Scan or import digital camera images directly into any of the programs Customize each program with power user techniques With Office 2008 for Macintosh The Missing Manual you get objective and entertaining instruction to help you tap into all of the features of this powerful suite so you can get more done in less time

Office X for Macintosh Nan Barber,Tonya Engst,David Reynolds,2002 Explains how to maximize the updated integrated software package on a Mac including installation customization and sharing information
