

Establishing Telephone Communication with Your PowerMax

To contact your PowerMax, dial the telephone number used by your system. Let it ring twice, then hang up. Wait at least 12 seconds but no more than 40 seconds, then call your PowerMax back. This time PowerMax will intercept your call. You will hear a click on the line, the ringing will stop a shrill signal will sound for 10 seconds. You may now issue any available command. If you wait longer than 45 seconds without keying in anything, the PowerMax will disconnect.

Two-Way Voice Communications

Once you have established communications with PowerMax from a remote telephone, you may initiate a conversation with a person left within the premises by keying in:

* * user code * 2 * 2

The system starts to function in "LISTEN IN" mode. This mode allows you to listen to sounds within the premises. If you wish to initiate a two-way conversation you must switch from Listen-In to Speak-Out manual. This means that only one party may talk at a time. It's recommended to finish sentences with "go ahead" or "over" to make the switch easier.
