The most important priority of the officer is able to survive in dangerous situations. Handcuffs are temporary restraining devices designed to control the movements of a subject. However they do not entirely immobilize a suspect. Its proper use and application is crucial for the safety of the officer, subject and public. Body searching is a vague topic. It is a careful systematic examination of the suspect at the scene of a crime or immediately after apprehension. Failure to conduct a proper search could cost an officer's or civilians' life.
