Practical Loss Control Leadership Frank Bird, Jr.,George Germain,Douglas Clark,1986-03-01 Effectiveness Efficiency Excellence These words and concepts permeate current literature courses and discussions They are defined in nearly as many different ways as the number of people who write and talk about them For practical purposes the definitions seem to boil down to these Effectiveness doing the right things Efficiency doing things right Excellence efficiently meeting effective goals both short term and long range We believe that this book can help you improve the effectiveness efficiency and excellence of your system for managing loss control and for quality production and cost control In essence it can help improve your management system Improved quality production and cost control go hand in hand with improved loss control and they all depend on how the system is managed The idea that excellence in safety and production go hand in hand is not new As early as 1928 the American Engineering Council based on an engineering and statistical study demonstrated that an organization with decreasing injury rates is eleven times more likely to show increased production than an unsafe one We believe that the book s concepts practices techniques and tools reflect what leading organizations around the free world have done and are doing to get their results Spanning more than three decades we have had the good fortune to work with tens of thousands of leaders in hundreds of organizations to distill the contents of this book The ideas and applications are tried

tested and proven Put them to work and they will work for you

Firefighting Operations Leadership: The Art of Incident Management (first book) sherif khaled, Accidents have occurred since ancient times fires drownings and collapses are all well known incidents with a long history Firefighting experts through their field experience and struggles with such events sought methods to help them contain incidents quickly This led to the emergence of what is known as the Incident Management System The incident referred to here is the advanced type that can be controlled by the capabilities and resources of civil protection departments with some limited technical assistance such as paramedics and technicians from electricity or water companies The book discusses the stages of incident response beginning with the pre incident phase and its importance in gathering information about the site and anticipating possible incidents to help determine the required resources and potential intervention strategies It also examines fire behavior its development and indicators effective water management in firefighting various ventilation techniques and direct intervention instructions in terms of using fire hoses and effective water streams The study also addresses intervention strategies offensive defensive and purely defensive with examples for each It explains how to organize operations at the incident scene and how to transfer command to another leader when the incident escalates beyond local response capabilities 6 Finally it reaches an important point in this study the leadership of advanced incident response its components the role of each component and how these elements are linked through a proposed organizational structure for incident command
