 The 100 Series Geometry offers in depth practice and review for challenging middle school math topics such as rotations, reflections, and transformations, congruence and similarity, and sine and cosine functions. Common Core State Standards have raised expectations for math learning, and many students in grades 6-8 are studying more accelerated math at younger ages. As a result, parents and students today have an increased need for at home math support. The 100 Series provides the solution with titles that include over 100 targeted practice activities for learning algebra, geometry, and other advanced math topics. It also features over 100 reproducible subject specific practice pages to support standards based instruction.

Key to Geometry, Book 8: Triangles, Parallel Lines, Similar Polygons, 2012-09-01
 Key to Geometry introduces students to a wide range of geometric discoveries as they do step by step constructions. Using only a pencil, compass, and straightedge, students begin by drawing lines bisecting angles and reproducing segments. Later, they do sophisticated constructions involving over a dozen steps. When they finish, students will have been introduced to 134 geometric terms and will be ready to tackle formal proofs. Includes Book 8 of Key to Geometry.
