

TOSHIBA

KEY FEATURES:

- 900 MHz Analog Cordless Phone
- Digital Integrated Telephone Answering Device (ITAD)
- Speakerphone
- Speaker Volume Control
- 40-Channel Auto Scanning
- 7-Day Standby Battery Life
- Reversible Charging System
- Any Key Answer
- Handset Locator/Page
- Mute

FT8930

KEY SELLING BENEFITS:

Advanced Compandor Noise Reduction

Reduces static and line noise for clearer reception. A noise reduction circuit that compresses, then decompresses (or expands) the transmissions between the handset and the base unit, significantly reducing the static and noise.

ITAD (Integrated Telephone Answering Device)

Maintenance-free answering device with easy message management. Works much like a regular answering system, except there are no tapes or moving parts to wear out and replace. The machine uses chip technology to record the messages.

Analog 900MHz Transmission

Extended-range crystal-clear conversations and more channels to reduce the crowding commonly found on lower frequency units. Unlike typical cordless phones which operate in the 46-49MHz range, 900MHz phones operate at a much higher and wider frequency range (902-928MHz). Sound quality is superior and virtually free of common interference or noise.

Any Key Answer

Eliminates the frustration of trying to find the correct button to answer a call. Toshiba phones will answer when any button is pressed.

Desk / Wall Mountable (Bracket Included)

Toshiba phones include a wall mounting bracket at no additional cost, enabling them to fit into nearly every application.

Hearing Aid Compatible / Hearing Aid Volume

Phones can be used by anyone, even those with electronic aid assisted hearing.

Last Number Redial (32 digits)

Tired of dialing those long calling card numbers? Toshiba's 32 digit redial can remember the most recent phone number dialed in addition to the calling card used.

Long Battery Life (7 days)

Less worrying about leaving the handset away from the base. Less chance of the battery running low during a phone conversation.

Memo Record

A convenient way to leave a reminder to anyone in the household. Provides separate message recording from the normal message area.

Pitch-Corrected Quick Playback

A time saving way to monitor messages. Digital playback provides the ability to play messages at a 30% increase in speed.

Remote Access with Voice Menu Functions

Convenience of retrieving messages. Provides the ability to check messages from any remote touch-tone phone and offers a voice menu guide of remote function codes.

Reversible Charging System

Significantly reduces the chances of incorrectly placing the handset into the base. Models with Caller ID benefit by allowing the user to see the LCD readout even when the handset is charging.

Voice Time / Day Stamp

Machine tracks day and time of every call to ensure timely response/follow up. By programming the answering machine with the correct time and day, the stamp records the time and day of the week a message was received.
