7th International Conference on Tourism Research Prof Rishi Balkaran, Dr Chris Hattingh, 2024-03-18 These proceedings represent the work of contributors to the 7th International Conference on Tourism Research ICTR 2024 hosted by the Centre for Tourism Research in Africa at the Cape Town Hotel School Cape Peninsula University of Technology South Africa on 18-19 March 2024. The Conference Chair is Prof Rishi Balkaran and the Programme Chair is Dr Chris Hattingh, both from Cape Peninsula University of Technology CPUT South Africa. ICTR is a well-established event on the academic research calendar and now in its 7th year, the key aim remains the opportunity for participants to share ideas and meet the people who hold them. The scope of papers will ensure an interesting two days. The subjects covered illustrate the wide range of topics that fall into this important and ever-growing area of research. Today more than ever, there is a need for research and scientific guidance as the tourist sector struggles to cope with the consequences of the COVID-19 pandemic, inflation, socio-political turbulences, climate change, and disaster risk.

Handbook of Research on Urban Tourism, Viral Society, and the Impact of the COVID-19 Pandemic Andrade, Pedro, Martins, Moisés de Lemos, 2022-06-30 The tourism and hospitality industries have faced major setbacks in recent years as they have had to combat various challenges such as the COVID-19 pandemic and a rapidly evolving global market. In order to ensure these industries are prepared for future crises, further study on the best practices and strategies for handling difficult times and managing growth is critical. The Handbook of Research on Urban Tourism, Viral Society, and the Impact of the COVID-19 Pandemic provides innovative research and perspectives on the revitalization of cultural tourism industries and services by addressing the creation of jobs in the areas of restoration, leisure, and culture. The book also analyzes how the tourism industry has handled global crises in the past and proposes business models for information and knowledge dissemination to appropriately handle disasters. Covering critical topics such as digital media and risk management, this major reference work is ideal for industry professionals, government officials, policymakers, researchers, academicians, scholars, practitioners, instructors, and students.

Sustainable Tourism
IV C. A. Brebbia, F. D. Pineda, 2010 Tourism has become a major international industry with many countries all over the world relying on the income it produces. Because it is a major source of finances and employment, government and other institutions actively promote tourism regardless of the impact on the environment, ecology, and social structure of the region. The demands of tourism can contribute to the destruction of the natural and cultural environment upon which it depends. The natural and cultural landscape's capacity to accommodate the local and worldwide effects of tourism, the typology thereof, and its implications for the economy and society constitute very important study objectives. The development of tourism can result in the degradation of natural landscapes that paradoxically attract tourists to such areas. Featured topics include Tourism Strategies, Tourism as a Tool of Development, Tourism Impact, Tourism and Protected Areas, Rural Tourism, Community Involvement, IT and Tourism, Climate Change, and Tourism Environmental Issues, Art, Architecture, and Culture.
