NFCTC FY98, Naval Facilities Contracts Training Center, Course Catalog ,1998 **Course Catalog** Naval Facilities Contracts Training Center (U.S.), *Cold Warriors* Roy R. Manstan,2014-05-20 This is the story of a technological war There was no ambiguity behind the phrase mutually assured destruction nuclear weapons and the means to deliver them had become a reality The atomic bomb brought Japan to the USS Missouri for the formal surrender on September 2 1945 a date that marked the end of World War Two But this date also signaled the beginning of the Cold War as the Soviet Union emerged from the shadows There was no shot heard round the world no Fort Sumter no Pearl Harbor only the threat of a mushroom cloud far worse than what Japan experienced The Cold War remained cold because all the players aggressively pursued a strategy of deterrence aimed at keeping the opponents finger off the trigger The people on the front lines and behind the scenes the Cold Warriors on both sides would come from the civilians who created the technology and the military that would be entrusted with its use When tensions escalated it was the Navy and the silent service that played a critical role In Cold Warriors the author describes a Navy laboratory in New London Connecticut populated with pioneers in submarine and antisubmarine warfare technology Their mandate was to take the intellectual risks that would keep this country one step ahead of the Soviet Union But ideas alone would not win the Cold War The scientists relied on teams of field engineers whose willingness to take on physical risk would convert theory into reality One of these groups was simply known as the divers Beginning in the 1950s the U S Navy Underwater Sound Laboratory began sending a small number of its civilian staff one or two each year to train at one of the Navys diving schools As the Laboratory in New London evolved into the Naval Undersea Warfare Center Newport Rhode Island that small team became the Engineering and Diving Support Unit For more than a half century the divers would travel the world this book is their story Department of Defense Authorization for Appropriations for Fiscal Year 1994 and the Future Years Defense Program: Military readiness and defense infrastructure United States. Congress. Senate. Committee on Armed Services,1999 **Leading a Learning Revolution** Frank J. Anderson,Christopher R. Hardy,Jeffrey Leeson,2010-03-18 Leading a Learning Revolution tells the compelling story of a learning revolution that took place within the U S Department of Defense Written by practitioners who actually walked the walk this account of the creation of Defense Acquisition University DAU provides a clear blueprint that others can follow It shares in detail the best practices they developed so that the thousands of training organizations worldwide striving to create premier corporate universities can catapult forward Offering an insider s look at the process the authors clearly explain how they transformed an outdated training provider into a world class university Step by step the book outlines the enduring principles that were pivotal to Defense Acquisition University s success and describes the environment early victories current methods and subsequent results The authors discuss how to establish a mission and vision develop a performance based strategic planning process and tackle change initiative They also explain the development and implementation of web

enabled learning architecture and reveal how to effectively measure and evaluate performance In addition the authors present strategies for assuring continual improvement and organizational growth With this book any organization can tap into DAU s best practices and winning strategies for improving corporate learning **Army RD & A Bulletin** ,1998-07

Providing the Means of War ,2005 General Editor Shannon A Brown Based on the papers presented at an acquisition history aymposium called Providing the Means of War held on 10 12 September 2001 Provides a way for the acquisition community to learn about the past and illuminate our understanding of contemporary and future issues Looks at case histories from the Army Navy and Air Force as well as from the Office of the Secretary of Defense Shows that the acquisition process is a shared burden with both private industry and the American government having important roles to play **Army RD & A.** ,1998 Professional publication of the RD A community **The Department of the Navy's Civilian Acquisition Workforce** Susan M. Gates,2009 Provides a descriptive overview of the Department of the Navy s civilian acquisition workforce over the past decade and presents the results of preliminary analyses of data related to specific workforce management issues retention professional development and leadership **Hearings on National Defense Authorization Act for Fiscal Year 1998--H.R. 1119 and Oversight of Previously Authorized Programs, Before the Committee on National Security, House of Representatives, One Hundred Fifth Congress, First Session** United States. Congress. House. Committee on National Security. Subcommittee on Military Procurement,1998 Examination of the U.S. Air Force's Science, Technology, Engineering, and Mathematics (STEM) Workforce Needs in the Future and Its Strategy to Meet Those Needs National Research Council,Division on Engineering and Physical Sciences,Air Force Studies Board,Committee on Examination of the U.S. Air Force's Science, Technology, Engineering, and Mathematics (STEM) Workforce Needs in the Future and Its Strategy to Meet Those Needs,2010-12-09 The Air Force requires technical skills and expertise across the entire range of activities and processes associated with the development fielding and employment of air space and cyber operational capabilities The growing complexity of both traditional and emerging missions is placing new demands on education training career development system acquisition platform sustainment and development of operational systems While in the past the Air Force s technologically intensive mission has been highly attractive to individuals educated in science technology engineering and mathematics STEM disciplines force reductions ongoing military operations and budget pressures are creating new challenges for attracting and managing personnel with the needed technical skills Assessments of recent development and acquisition process failures have identified a loss of technical competence within the Air Force that is in house or organic competence as opposed to contractor support as an underlying problem These challenges come at a time of increased competition for technical graduates who are U S citizens an aging industry and government workforce and consolidations of the industrial base that supports military systems In response to a request from the Deputy Assistant Secretary of the Air Force for Science Technology and Engineering the National Research Council conducted five fact finding

meetings at which senior Air Force commanders in the science and engineering acquisition test operations and logistics domains provided assessments of the adequacy of the current workforce in terms of quality and quantity **Hearings on National Defense Authorization Act for fiscal year 1998--H.R. 1119 and oversight of previously authorized programs, before the Committee on National Security, House of Representatives, One Hundred Fifth Congress, first session** United States,1998 **"Urgent Reform Required: Army Expeditionary Contracting"** United States.
