 a book about the origins design implementation and effects of the Primary Care Curriculum at the University of New Mexico
 School of Medicine It is also so much more It is a first person account of a moving human experience in which some deeply
 caring people search for ways to provide a humane effective learning experience for students who are seen as preparing to
 be practitioners of a humane changing profession In the 1920s Gertrude Stein observed that the United States was now the
 oldest country in the world for it was the first to join the twentieth century Perhaps we must now view the University of New
 Mexico s PCC as among the oldest programs in medical education for it may prove to have been one of the first to join the
