*Tempting Fate* Paul C. Avey, 2019-11-15 Unpacking of the dynamics of conflict under conditions of nuclear monopoly Paul C Avey argues in *Tempting Fate* that the costs and benefits of using nuclear weapons create openings that weak nonnuclear actors can exploit Avey uses four case studies to show the key strategies available to nonnuclear states Iraqi decision making under Saddam Hussein in confrontations with the United States Egyptian leaders thinking about the Israeli nuclear arsenal during wars in 1969 70 and 1973 Chinese confrontations with the United States in 1950 1954 and 1958 and a dispute that never escalated to war the Soviet United States tensions between 1946 and 1948 that culminated in the Berlin Blockade Strategies employed include limiting the scope of the conflict holding chemical and biological weapons in reserve seeking outside support and leveraging international non use norms Avey demonstrates clearly that nuclear weapons cast a definite but limited shadow and while the world continues to face various nuclear challenges understanding conflict in nuclear monopoly will remain a pressing concern for analysts and policymakers Thanks to generous funding from Virginia Tech and its participation in TOME the ebook editions of this book are available as Open Access volumes available from Cornell Open [cornellpress.cornell.edu/cornell-open](http://cornellpress.cornell.edu/cornell-open) and other repositories

**Late-Life Homelessness** Amanda Grenier, 2022-01-15 Around the world and across a range of contexts homelessness among older people is on the rise In spite of growing media attention and new academic research on the issue older people often remain unrecognized as a subpopulation in public policy programs and homeless strategies As such they occupy a paradoxical position of being hypervisible while remaining overlooked Late Life Homelessness is the first Canadian book to address this often neglected issue Basing her analysis on a four year ethnographic study of late life homelessness in Montreal Canada Amanda Grenier uses a critical gerontological perspective to explore life at the intersection of aging and homelessness She draws attention to disadvantage over time and how the condition of being unhoused disrupts a person's ability to age in place resulting in experiences of unequal aging Weaving together findings from policy documents stakeholder insights and observations and interviews with older people this book demonstrates how structures organizational practices and relationships related to homelessness and aging come to shape late life Situated in the context of an aging population rising inequality and declining social commitments Late Life Homelessness stresses the moral imperative of responding justly to the needs of older people as a means of mitigating the unequal aging of unhoused elders

**Equine Sports Medicine and Surgery - E-Book** Kenneth W Hinchcliff, Andris J. Kaneps, Raymond J. Amrein-Beardsley, 2014-04-24 Since passage of the No Child Left Behind Act in 2001 academic researchers econometricians and statisticians have been exploring various analytical methods of documenting students academic progress over time Known as value added models VAMs these methods are meant to measure the value a teacher or school adds to student learning from one year to the next To date however there is very little evidence to support the trustworthiness of these models What is becoming increasingly evident yet often ignored mainly by policymakers is that VAMs are 1 unreliable 2 invalid 3 nontransparent 4 unfair 5 fraught with measurement errors and 6 being inappropriately used to make consequential decisions regarding such things as teacher pay retention and termination Unfortunately their unintended consequences are not fully recognized at this point either Given such the timeliness of this well researched and thoughtful book cannot be overstated This book sheds important light on the debate surrounding VAMs and thereby offers states and practitioners a highly important resource from which they can move forward in more research based ways *The Labor of Lunch* Jennifer E. Gaddis, 2019-11-12 There s a problem with school lunch in America Big Food companies have largely replaced the nation s school cooks by supplying cafeterias with cheap precooked hamburger patties and chicken nuggets chock full of industrial fillers Yet it s no secret that meals cooked from scratch with nutritious locally sourced ingredients are better for children workers and the environment So why not empower lunch ladies to do more than just unbox and reheat factory made food And why not organize together to make healthy ethically sourced free school lunches a reality for all children The Labor of Lunch aims to spark a progressive movement that will transform food in American schools and with it the lives of thousands of low paid cafeteria workers and the millions of children they feed By providing a feminist history of the US National School Lunch Program Jennifer E Gaddis recasts the humble school lunch as an important and often overlooked form of public care Through vivid narration and moral heft The Labor of Lunch offers a stirring call to action and a blueprint for school lunch reforms capable of delivering a healthier more equitable caring and sustainable future

Disability and Vocational Rehabilitation in Rural Settings Debra A. Harley, Noel A. Ysasi, Malachy L. Bishop, Allison R. Fleming, 2017-11-03 This first of its kind textbook surveys rehabilitation and vocational programs aiding persons with disabilities in remote and developing areas in the U S and abroad Contributors discuss longstanding challenges to these communities most notably economic and environmental obstacles and ongoing barriers to service delivery as well as their resilience and strengths Intersections of health social structural and access disparities are shown affecting rural disabled populations such as women racial and sexual minorities youth and elders In terms of responses a comprehensive array of healthcare and health policy solutions and recommendations is critiqued with regard to health employment and service effectiveness outcomes Included among the topics Healthcare initiatives strategies and challenges for people with disabilities in rural frontier and territory settings Challenges faced by veterans residing in rural communities The Asia and Pacific region rural urban impact on disability Challenges after natural disaster for rural residents with disabilities Meeting the needs of rural adults with mental illness and dual diagnoses Capacity building in rural communities through community based collaborative partnerships Disability and Vocational Rehabilitation in Rural Settings makes a worthy textbook for graduate students and upper level undergraduates in the fields of social work community and environmental psychology public health sociology education and geography Its professional audience also includes vocational rehabilitation counselors serving these dynamic populations
