

## NCCI and MACs

The NCCI Policy Manual should be used by Medicare Administrative Contractors (MACs) as a general reference tool that explains the rationale for NCCI edits. MACs implemented NCCI PTP edits within their claim processing systems and CMS incorporated PTP edits into the outpatient code editor (OCE) for OPPS. These edits are applied to outpatient hospital services and other facility services including, but not limited to, therapy providers (Part B Skilled nursing facilities (SNFs)), comprehensive outpatient rehabilitation facilities (CORFs), outpatient physical therapy and speech-language pathology providers (OPTs), and certain claims for home health agencies (HHAs).

**Workers Compensation** Peter Lencsis, 1998-06-25 For human resource professionals labor law specialists and others involved in the practice of labor management relations Lencsis provides a concise easily accessed description of the workers compensation system in the United States its governing laws and also its insurance aspects. Lencsis explains that workers compensation laws were enacted on the federal and state levels in the early part of the century and have endured in the same basic form to the present. They represent a radical departure from common law concepts of negligence and damages in that they provide for statutory medical and wage loss benefits regardless of who is at fault. Lencsis explores how insurance mechanisms in the public and private sectors are used to fund benefits and to make their delivery as secure and certain as possible. He also notes that workers compensation insurance is a major part of the property casualty insurance business and as such has recently become one of its most profitable areas.
