Nic Report 2025 Pakistan:

The Hindu Kush Himalaya Assessment Philippus Wester, Arabinda Mishra, Aditi Mukherji, Arun Bhakta Shrestha, 2019-01-04 This open access volume is the first comprehensive assessment of the Hindu Kush Himalaya HKH region. It comprises important scientific research on the social, economic, and environmental pillars of sustainable mountain development and will serve as a basis for evidence-based decision making to safeguard the environment and advance people's well-being. The compiled content is based on the collective knowledge of over 300 leading researchers, experts, and policymakers brought together by the Hindu Kush Himalayan Monitoring and Assessment Programme (HIMAP) under the coordination of the International Centre for Integrated Mountain Development (ICIMOD). This assessment was conducted between 2013 and 2017 as the first of a series of monitoring and assessment reports under the guidance of the HIMAP Steering Committee. Eklavya Sharma (ICIMOD), Atiq Raman (Bangladesh), Yuba Raj Khatri (Nepal), Linxiu Zhang (China), Surendra Pratap Singh (India), Tandong Yao (China), and David Molden (ICIMOD and Chair of the HIMAP SC). This First HKH Assessment Report consists of 16 chapters which comprehensively assess the current state of knowledge of the HKH region, increase the understanding of various drivers of change and their impacts, address critical data gaps, and develop a set of evidence-based and actionable policy solutions and recommendations. These are linked to nine mountain priorities for the mountains and people of the HKH, consistent with the Sustainable Development Goals. This book is a must-read for policy makers, academics, and students interested in this important region and an essentially important resource for contributors to global assessments such as the IPCC reports.

The Future of Pakistan Stephen P. Cohen, 2011-10-01 With each passing day, Pakistan becomes an even more crucial player in world affairs. Home of the world's second largest Muslim population, epicenter of the global jihad, location of perhaps the planet's most dangerous borderlands, and armed with nuclear weapons, this South Asian nation will go a long way toward determining what the world looks like ten years from now. *The Future of Pakistan* presents and evaluates several scenarios for how the country will develop, evolve, and act in the near future, as well as the geopolitical implications of each. Led by renowned South Asia expert Stephen P. Cohen, a team of authoritative contributors looks at several pieces of the Pakistan puzzle. The book begins with Cohen's broad yet detailed overview of Pakistan, placing it within the context of current day geopolitics and international economics. Cohen's piece is then followed by a number of shorter, more tightly focused essays addressing more specific issues of concern. Cohen's fellow contributors hail from America, Europe, India, and Pakistan itself, giving the book a uniquely international and comparative perspective. They address critical factors such as the role and impact of radical groups and militants, developments in specific key regions such as Punjab, and the rugged frontier with Afghanistan, and the influence of and interactions with India. Pakistan's archival since birth. The book also breaks down relations with other international powers such as China and the United States. The all-important military and internal security apparatus come under scrutiny, as do rapidly morphing social and gender issues.

Political and party developments are examined along with the often amorphous division of power between Islamabad and the nation's regions and local powers. Uncertainty about Pakistan's trajectory persists. The Future of Pakistan helps us understand the current circumstances, the relevant actors and their motivation, the critical issues at hand, the different outcomes they might produce and what it all means for Pakistanis, Indians, the United States and the entire world. Praise for the work of Stephen P. Cohen: The Idea of Pakistan. The intellectual power and rare insight with which Cohen breaks through the complexity of the subject rivals that of classics that have explained other societies, posing a comparable challenge to understanding Middle East Journal of International Affairs. India: Emerging Power. In light of the events of September 11, 2001, Cohen's perceptive, insightful and balanced account of emergent India will be essential reading for U.S. foreign policymakers, scholars and informed citizens. Choice.

The U.S. Army Stability Operations Field Manual, 2010-06-04. Field Manual 3-07, Stability Operations, represents a milestone in Army doctrine. With a focus on transforming conflict, managing violence when it does occur, and maintaining stable peace, The U.S. Army Stability Operations Field Manual, otherwise known as FM 3-07, signals a stark departure from traditional military doctrine. The Army officially acknowledges the complex continuum from conflict to peace, outlines the military's responsibility to provide stability and security, and recognizes the necessity of collaboration, coordination, and cooperation among military, state, commercial, and non-government organizations in nation-building efforts. The manual reflects a truly unique collaboration between the Army and a wide array of experts from hundreds of groups across the United States, Government, the intergovernmental and non-governmental communities, America's allies around the world, and the private sector. All branches of the armed forces, U.S. agencies ranging from the State Department to Homeland Security to Health and Human Services, international agencies from the United Nations to the Red Cross to the World Bank, countries from the United Kingdom to India to South Africa, private think tanks from RAND to the United States Institute of Peace to the Center for New American Security, all took part in the shaping of this document. The U.S. Army Stability Operations Field Manual marks just the second time in modern history that the U.S. Army has worked with a private publisher to produce a military doctrinal document. Lieutenant General William B. Caldwell IV is Commander of the Combined Arms Center at Fort Leavenworth, Kansas. Michelle Flournoy, Under Secretary of Defense for Policy, Shawn Brimley, Fellow, Center for a New American Security, Janine Davidson, Deputy Assistant Secretary of Defense for Plans, It is a roadmap from conflict to peace, a practical guidebook for adaptive, creative leadership at a critical time in our history. It institutionalizes the hard-won lessons of the past while charting a path for tomorrow. This manual postures our military forces for the challenges of an uncertain future, an era of persistent conflict where the unflagging bravery of our Soldiers will continue to carry the banner of freedom, hope, and opportunity to the people of the world. From the foreword by Lieutenant General William B. Caldwell IV, Commander of the Combined Arms Center at Fort Leavenworth, Kansas.

older adults population in South Asia and other low and middle income countries It is well known that resources are fewer in this region and most of the older adults in these areas are not recognized or treated There is a urgent need to explore the services available their appropriateness and effectiveness and to reflect on the region specific economically viable solutions that can be adapted soon The book discusses how these services can be seamlessly integrated to the existing support systems Besides the interventional aspects the book also explores the facilitating and impeding factors of implementing evidence based preventive efforts in these countries

Skills Ikram Azam,2006 **Learn for our planet** UNESCO,2021-05-13 **Bihar and Mithila** J. Albert

Rorabacher,2016-09-13 The world has become obsessed with the Western notions of progress development and globalization

the latter a form of human and economic homogenization These processes through the aegis of the United Nations are

comparatively monitored Those nations deemed to be lagging behind are then provided with foreign aid and developmental

assistance For nearly seventy years India has sought its place in this global endeavour yet even today abject poverty and

backwardness can be observed in districts in almost every state with the highest concentration of such districts found in the

state of Bihar and a cultural enclave known as Mithila Development in India has been elusive because it is difficult to define

and because the Western concepts of development and progress have no absolute equivalents within many non Western

settings As a consequence development programmes often fail because they are unable to ask the right questions but equally

important is the political economy derived from foreign aid For politicians there is no long term benefit to be derived from

successful development In general foreign aid only serves to corrupt governments and politicians and in the end does very little for those who need help The struggling states of Bihar and Mithila serve as extreme examples of India's problems Development here has been thwarted by a hereditary landed aristocracy supported by religion casteism custom social stratification tradition and patterns of behaviour that can be traced back millennia In turn all these have been masterfully manipulated by co-opted politicians who have turned politics into a veritable art form as this volume comprehensively demonstrates

Violence and Development along the India-Pakistan Border in Jammu & Kashmir Deep Pal, Surya Valliappan Krishna, Saheb Singh Chadha, 2025-05-19 This book examines the impact of cross border violence on communities living along the Line of Control and the International Border in Jammu and Kashmir India Using Sustainable Development Goals 3 4 and 8 as metrics it examines the first and second order effects of ceasefire violations efforts by state and private actors and the role of coincident factors such as geography terrain and the socio political environment It uses diverse sources including newspapers civil society reports government records surveys stakeholder interviews and field visits The study finds that cross border violence affects everyday life through confinement displacement and migration Beyond death or injury violence along the border impacts mental health damages infrastructure and reduces access to educational and financial facilities It also discourages skilled human resources and private investment in these areas The violence and the responses to it deter normal life and activity and over time leave a permanent impact on the socio economic fabric of the region
