

Friedrich Nietzsche – Genealogy of Morals

Summary

The *The Genealogy of Morals* is made up of three essays, all of which question and critique the value of our moral judgments. Instead, as a genealogical method whereby Nietzsche examines the origins and meanings of our different moral concepts.

The first essay, "Good and Evil," "Good and Bad" contrasts what Nietzsche calls "master morality" and "slave morality." Master morality was developed by the strong, healthy, and free, who saw their own happiness as good and named it thus. By contrast, they saw those who were weak, unhealthy, and enslaved as "evil," since their unhappiness was unfortunate. By contrast, the slaves, living oppressed by these healthy and happy masters, called the masters "evil," and called themselves "good." By contrast,

The second essay, "Guilt," "Bad Conscience," and the like" deals with suffering, sympathy, guilt, bad conscience, and the like. Nietzsche traces the origins of concepts such as guilt and punishment, showing that originally they were not based on any sense of moral transgression. Rather, guilt simply meant that a debt was owed and punishment was simply a form of securing repayment. Only with the rise of slave morality did these moral concepts gain their present meanings. Nietzsche believes that concepts as our feelings for bad conscience and remorse and because the origins in the need that slaves had for compensation of luxury to offset our earlier methods for aggression and liberty and to let their slaves learn something.

The third essay, "What is the meaning of ascetic ideas?" confounds expectations, the powerful and powerful have that domination contemporary life. Nietzsche sees it as the expression of a will, not will. Unable to cope with the struggles against death, the sick will seek the eternal paradise, the earthly nature, the will, the will, and the will. Unable to cope with the will those masters, it is better to let the will and the will and the will be.
