Vol. 19: Photography: Beyond Semi-Pro: The Nikon D800 & D800E Shawn M. Tomlinson, 2018-03-14 I have been somewhat reluctant to write about the absolute best digital single lens reflex camera I have ever used the Nikon D800E The reason is that I like to write about older cameras that have become cheaper to buy and use for the frugal photographer Although some of the

cameras I have written about were terribly expensive when first released by now they are reasonably cheap For example I ve written books about the Canon EOS 1DS 1DS Mark II the Nikon D1 and the Nikon D2X These all are pro DSLRs and as such were released at prices ranging from 6 000 to 8 000 By now however the most you will pay is around 400 for any of them In a few years the Nikon D800E too will be much cheaper and an obvious choice for the frugal photographer No matter the price the D800 and D800E are two of the best DSLRs ever made Either will change you as a photographer in fantastic ways

[Vol. 31: Going Film Pro II: The Canon EOS 1N: Standard Edition](#) Shawn M. Tomlinson,2018-12-31 In some ways the Nikon F5 is easier to use than the Canon EOS 1N but it is not nearly as elegant There s just something about the way the Canon EOS 1N feels in my hands when I m shooting with it that makes me never want to put it down In that way it reminds me much more of the Nikon F4S than the Nikon F5 Practically since I placed the order for the camera it was inevitable that I would need to write about it If you are seeking the perfect late model film SLR camera you need look no further than the second to last pro level Canon EOS 1N Just load a roll of film take the camera in your hands and start shooting You too will never want to let it go

Photography: Choosing Your Film SLR Shawn M. Tomlinson,2018-02-22 Film cameras the bodies themselves have little to do with image quality Lenses are far more important to image quality than camera bodies So as long as your camera has accurate shutter speeds aperture settings and metering the brand you pick doesn t really have much of an effect upon the final image So then it appears the model camera you choose is irrelevant Well no The type of film SLR camera you choose is most important to you as the photographer in features

and convenience Comfort has a lot to do with how good you are as a photographer What I mean by that is that you choose a camera that feels comfortable in your hands and becomes an extension of your brain as a photographer This makes it easier to capture the types of images you want

Tomlinson,2018-12-14 Simply put medium format photography is quite a bit more complex than shooting with 35mm film SLRs or 35mm style DSLRs It takes a bit more skill and experience to handle medium format cameras Not only do you need to learn to think differently about how you shoot but you also have a whole new type of equipment to learn Medium format cameras produce bigger images which allows for more detail and greater enlargement And because they in general were designed for professional photographers the lenses tend to be of better quality than most 35mm lenses which also adds to the detail in the images In this book we ll take a look at medium format SLRs and TLRs and we ll even touch upon some other types We ll also consider a few lenses although these largely are a matter of choice And there are far fewer choices for medium format cameras than for other types Time to do some weight training and heft those medium format cameras and lenses into position Let s go *Short Rounds: An Eclectic Collection of Stories, Poems and a Short Memoir* Richard H. Nilsen,2018-03-08 Since *Five Easy Pieces* was already taken as a title I guess *Short Rounds* will have to do Also it seems appropriate that as of this writing I have five published books in print These five short stories can serve as a complementary addendum to those five books I also include a short spiritual memoir titled *Faith Came Easy* and two previously unpublished poems I will try to let the short fiction speak for itself but I should add that it is as eclectic as I can make it There is mystery science fiction scene portraiture and even an attempt at horror So here goes Some quick reads and I hope interesting pieces They pretty much all stand alone except possibly *Inside Out* which utilizes the main character from my *Adirondack Mystery* series Hallum Johnson The other stories are all orphans in character and the fact that this is the first time they have seen the light of day in publication
