Close Up Photography in Nature John and Barbara Gerlach, 2014-07-17 Capturing the grandeur of landscapes or mood of a certain natural light is challenging but often the simple details of a texture or color evade photographers most of all In Close Up Photography in Nature best selling authors and nature photography pros John and Barbara Gerlach share the tips and techniques necessary to successfully photograph the beauty all around you The Gerlachs are celebrated teachers who understand a photographer s mind so they begin this book with a brief overview of the fundamentals before delving into some of the more advanced and unique challenges of close up photography Topics covered

include advanced flash techniques specific for close up shooting as well as a discussion on focus stacking strategies and tilt shift lenses for getting maximum depth of field The Gerlachs also discuss their strategy of mixing flash with natural light when shooting close up which opens up all sorts of photographic possibilities opening up shadows creating shadows separating the subject from the background reducing contrast between the subject and the background improving the color rendition shooting sharper images and much more This book will change the way you see the world as well as the way you share it through your work the world through your work *Winning Images with Any Underwater Camera* Paul

Colley,2014-05-29 This book will arm and inspire you to transform your underwater photographs whatever camera you use Alex Mustard from the Foreword The best underwater images don't just capture the subject well they also capture mood emotion and atmosphere Unlike most other underwater photography books *Winning Images with Any Underwater Camera* focuses on composition and techniques rather than the all consuming camera technology that people tend to chase first This makes it a supremely cost effective tool for improving images and there is no discrimination between users of different camera systems this truly is a book for all International award winner and instructor Paul Colley reveals the short cuts and shows the vital bits of artistic theory as it applies to underwater photography grappling with composition in much greater depth than in other books He also includes easy to remember reference models for underwater composition pre planned concepts for twelve typical underwater scenes with the principal considerations boiled down to those essentials that will help you achieve great results time and again **Outdoor Flash Photography** John Gerlach,Barbara Eddy,2017-06-27

Maximizing the power of your camera's flash is difficult enough in a studio set up but outdoors literally presents a whole new world of challenges John Gerlach and Barbara Eddy have taken the most asked about subject from their renowned photography workshops and turned it into this guidebook that is sure to inspire your next outdoor shoot while also saving you time and frustration *Outdoor Flash Photography* covers a range of practices from portrait to landscape including unique strategies that the authors have pioneered through 40 years in the field Mastering the use of multiple flashes to freeze action is shown through one of most challenging subjects in nature hummingbirds in flight This book will benefit photographers of all experience levels who are eager to evolve their outdoor photography and get the most out of their equipment *Lighting & Design for Portrait Photography* ,2014-11-17 Some photographers make portraits that we can't take our eyes off of These images create mood evoke emotion and pique our curiosity They have that certain something that other portraits seem to lack These rare images are memorable the kind of shots that clients want and photographers strive to emulate These portraits are technically precise and have style Neil van Niekerk is a big name in the portrait and wedding photography industry His masterful photographs get a reaction and he's devoted to helping others create compelling portraits for their clients In this book van Niekerk shows readers strategies for creating a wide range of portrait looks romantic fun sweet dramatic glamorous or moody in lackluster middle of nowhere locales small home studios big expanses and even on rooftops

Starting with traditional lighting and posing strategies and moving through spicier varieties he shows readers how integrating specialized lighting rim lighting backlighting flare and low key lighting using natural light and artificial sources and compositional approaches shallow depth of field lens compression and unorthodox perspectives into their creative approach can allow them to take full creative control over their portrait taking process so that they re able to deliver incredible shots of their clients in any photographic conditions

The Light and the Life Joe McNally,2014-10-21 I ve gotten a lot of requests the past few years to make a keepsake a compilation if you will of the favorites from the blog It s easy to miss a blog post anyone s post because the rush of day to day life intercedes This book gives me a chance to put some favorite posts together in one place and to collect a lot of thoughts feelings and lessons into something coherent It s humorous educational and most of all real Editing for this book was like editing pictures You pick the ones that resonate have the potential for memory and possess some sort of emotional or stylistic connection The following 25 stories are a cross section of the most popular educational and madcap posts from the blog The ones that have struck a chord with readers The book has two sections The Light and The Life The Light section deals with the nuts and bolts of using flash and crafting light There s a bunch of techniques strategies truisms and gear talk The Life section is about a photographic life about being a shooter which is sometimes painful sometimes humorous but hopefully at the end of the day anecdotally educational Writing the blog has been different from writing a book because it s less formal and a little more raw I have occasionally written about times gone by and events I ve had a chance to reflect on On other occasions a blog has spontaneously sprung from the events in the field that day from the frustration of getting on an airplane with a lot of photo gear to dealing with a difficult subject or client It s the unedited rushes of the photographic experience It veers from considered commentary to technical lessons to quick funny riffs about the exasperating goofy stuff of any given day in the field It s quick off the mark and an honest account of just how wonderful amazing crazy sad frustrating rewarding disheartening and ultimately glorious it is to be a visual storyteller Joe
