Hidden Genocides Alexander Laban Hinton,Thomas La Pointe,Douglas Irvin-Erickson,2013-12-18 Why are some
genocides prominently remembered while others are ignored hidden or denied Consider the Turkish campaign denying the
Armenian genocide followed by the Armenian movement to recognize the violence Similar movements are building to
acknowledge other genocides that have long remained out of sight in the media such as those against the Circassians Greeks

Assyrians the indigenous peoples in the Americas and Australia and the violence that was the precursor to and the aftermath of the Holocaust The contributors to this collection look at these cases and others from a variety of perspectives These essays cover the extent to which our biases our ways of knowing our patterns of definition our assumptions about truth and our processes of remembering and forgetting as well as the characteristics of generational transmission the structures of power and state ideology and diaspora have played a role in hiding some events and not others Noteworthy among the collection s coverage is whether the trade in African slaves was a form of genocide and a discussion not only of Hutus brutalizing Tutsi victims in Rwanda but of the execution of moderate Hutus as well Hidden Genocides is a significant contribution in terms of both descriptive narratives and interpretations to the emerging subfield of critical genocide studies Contributors Daniel Feierstein Donna Lee Frieze Krista Hegburg Alexander Laban Hinton Adam Jones A Dirk Moses Chris M Nunpa Walter Richmond Hannibal Travis and Elisa von Joeden Forgey
