**Proceedings 1983** ,1983 **CENELEC Catalogue 1990** CENELEC (Organization),1990 **Sensory Mechanisms of the Spinal Cord** William D. Willis,Richard E. Coggeshall,1991-07-31 This monograph thoroughly examines the latest theory and research concerning spinal cord mechanisms of sensory processing The book begins with a historical review of the organization of the peripheral nervous system is outlined in terms of sensory receptors and primary afferent axons The authors examine the dorsal horn and the structure and function of dorsal horn internurons and neurophysiological evidence concerning the location of sensory pathways in the spinal cord white matter After the dorsal column dorshlateral fasciculus and the ventral quadrant are covered the final chapter summarizes knowledge on receptors and spinal cord pathways of various sensations including touch pressure flutter vibration pain temperature position sense visceral sensation and descending control systems **Engineering Materials List** ,1966 **Sensory Mechanisms of the Spinal Cord** William D. Willis Jr.,2013-06-29 As stated in the preface to the first edition the goal of this monograph is to provide an overview of

current thought about the spinal cord mechanisms responsible for sensory processing We hope that the book will be of value to both basic neuroscientists and clinicians The organization of the monograph has followed the original plan in most respects although the emphasis has changed with respect to many topics because of recent advances In particular a substantial increase in the number of investigations of the dorsal root ganglion has led us to devote a chapter to this topic The treatment of chemical neuroanatomy in the dorsal horn as well as the relevant neuropharmacology has also been expanded considerably Another major emphasis is on the results of experiments employing microneurography in human subjects We thank Margie Watson and Lyn Schilling for their assistance with the typing and Griselda Gonzales for preparing the illustrations
