Plant-Wide Process Control Kelvin T. Erickson, John L. Hedrick, 1999-04-29 The complete control system engineering solution for continuous and batch manufacturing plants This book presents a complete methodology of control system design for continuous and batch manufacturing in such diverse areas as pulp and paper petrochemical chemical food pharmaceutical and biochemical production Geared to practicing engineers faced with designing increasingly more sophisticated control systems in response to present day economic and regulatory pressures Plantwide Process Control focuses on the engineering portion of a plant automation improvement project It features a full control design information package Control Requirements Definition or CRD and guides readers through all steps of the automation process from the initial concept to design simulation testing implementation and operation This unique and practical resource Integrates continuous batch and discrete control techniques Shows how to use the methodology with any automation project existing or new simple or complex large or small Relates recent ISO and ISA standards to the discipline of control engineering Illustrates the methodology with a pulp and paper mill case study Incorporates numerous other examples from single loop controllers to multivariable controllers

Aircraft Electrical Practice Lewis F. Wainwright, 1961 Advances in Motor Neuroprostheses Ramana Vinjamuri, 2020-04-10 This book provides a comprehensive review of recent developments in the field of motor neuroprosthetics and brain machine interfaces Chapters in this book are provided by leading experts in the field and include topics such as the design and control of multidimensional prosthetics and exoskeletons deep brain stimulation functional electrical stimulation deep learning for brain machine interfaces biofeedback and cognitive intent for adaptation of motor prostheses This book is a great resource for undergraduate and graduate students researchers engineers from related disciplines entrepreneurs and anyone interested in the latest progress in the field of motor neuroprostheses
