

eNAVFIT

NEW EVAL/FITREP PROCESS

eNavFit will bring the outdated process of NAVFIT98A and manual routing of performance reports into the modern era.

The new interface includes an automated workflow environment, digital signatures, built-in error checking, online routing and digital sign-off receipts — all streamlined from creation to service record submission.

ONLINE SUBMISSION

eNavFit gives local administrators the ability to create, edit, delete, route and validate performance appraisals, as well as allows reporting seniors to group and process summary group reports before pushing through on a web-based system or saving to a controlled medium.

Users in an operational environment may still access an online system at a later date or print and mail documents to the Performance Evaluations Division (PERS-32) for processing.

PILOT PHASE

Several Navy Reserve commands and units have been chosen to test the eNavFit program's evaluation and fitness report cycle across several pay grades beginning this summer. Navy Personnel Command will gather feedback for a Fleet-wide rollout by December 2021.

The NAVY RESERVE is supporting MyNAVYHR in building and testing the future of NAVY EVALS and FITNESS REPORTS.
