Navy Technical Manual Style Guide:

The Naval Institute Guide to Naval Writing, 4th Edition Christopher E Crane, Estate of Robert E Shenk, 2024-06-01
With updates to every chapter this new fourth edition serves as the premier guide to professional writing for the naval services. Authored by a naval officer who taught English at two service academies, the book is widely used by officers, enlisted men and women, and civilians in both the Navy and Marine Corps. Shenk provides sound practical advice on all common naval writing assignments across digital and print platforms. Fully revised, the book reflects the changing landscape of professional communication in general and changes in naval culture in the last decade across the fleet, making it an essential guide.

Stocked by the Marine Corps (indexed by Distribution), 1997 Research in Technical Communication Michael G.
Moran, Debra Journet, 1985. This sourcebook demonstrates the vigorous work being done in the field of technical and
scientific communication. Collectively, the essays offer researchers a basis from which to begin constructing the theoretical
framework necessary for the study of technical communication. The book begins with general concerns and progresses to
particular applications. The chapters comprising Part I outline larger theoretical perspectives from which to examine technical
communication. Humanistic approaches to technical communication, the history of technical communication, communication
theory and technical writing, and the teaching of technical writing. Part II examines the relationship of technical
communication to traditional rhetorical concerns such as invention, audience, modes of organization, and style. Specific types
of technical communication: proposals, reports, and business correspondence among others are discussed in Part III. The use of
the computer, oral presentations, and specialized forms of technical communication are examined in Part IV. The appendixes
offer guides to textbooks and style manuals and an overview of the technical writing profession. *Newsletter*, 1998
