This 60-year visual history captures the interaction of human and animal, viewer and subject, and sweeps us up in the great natural tapestry of life. *Wall Street Journal*: There's a unique magic to nature photography, and *60 Years of Wildlife Photographer of the Year* reflects that wonder on every page. The book collects more than 230 breathtaking images from one of the world's most prestigious photography competitions, hosted by the Natural History Museum, London, with captions that provide insight on the subject and the photographer's methods. The images capture intimate, otherworldly and poignant moments, including elephants taking a mud shower, a macaque seeing his reflection for the first time, the courtship dance of a humpback whale, a convolvulus hawk moth drinking from a tobacco flower, vibrant orange algae growing on a Monterey cypress. The book uncovers the striking beauty of animals, plants and landscapes across the globe and also reveals the artistry behind successful wildlife photography, which involves patience, instinct and an understanding of animal behavior to get the perfect shot. Many of the photos also serve as important symbols of conservationism, demonstrating the urgent need to preserve the natural world. *60 Years of Wildlife Photographer of the Year* positions wildlife photography as an important part of art history and provides the ultimate way to witness all that nature has to offer.
