Silent Voices Brenda Ayres, 2003-04-30 Some of the greatest English novels were written during the Victorian era and many are still widely read and taught today But many others written during that period have been neglected by scholars and modern readers alike A number of these novels were written by women and were popular when published Moreover they reveal perspectives of 19th century British culture not present in canonized works and therefore revise our understanding of Victorian life and attitudes With the increasing interest in revising Victorian history and gender scholarship especially through the rediscovery of lost texts written by women this book is a timely and much needed study The expert contributors to this volume argue the value of novels by such Victorian women writers as Grace Aguilar Catherine Crowe Charlotte Elizabeth Tonna Annie E Holdsworth Ella Hepworth Dixon Flora Annie Steel Anne Thackeray Sarah Grand Marie Corelli and others Most of the chapters address numerous works by a particular writer Each focuses on different social issues as well though most of them share an interest in gender politics Topics discussed include a 19th century Jewish novelist's navigation through Protestant spirituality the relationship of noncanonical governess novels to class and gender issues and forgotten works by women crime writers Other chapters analyze how women writers impelled social reform and subverted patriarchally defined religious issues

Silent Love Gerard Vries, 2019-08-28 The Real Life of

Sebastian Knight is one of Vladimir Nabokov's most autobiographical novels and it has often been observed that Sebastian's passionate affair with the femme fatale Nina Rechnoy is a dramatized extension of Nabokov's infatuation with Irina Guadanini. In this book it is shown that the novel also conceals another secluded love affair Sebastian had with a man which reflects the main episode in the life of Nabokov's brother Sergey. By pursuing many biographical and literary references and allusions and by disregarding the deceptive guiding by the narrator Sebastian's half brother this moving story about Sebastian's silent love becomes brightly visible.

The Silent Bullet Arthur B. Reeve, 2021-04-06 A collection that might have been called CSI 1912. Kirkus Reviews The seventh book in the esteemed Library of Congress Crime Classics, an exciting new classic mystery series created in exclusive partnership with the Library of Congress. This short story collection features twelve tales of intrigue and suspense starring Craig Kennedy, the American Sherlock Holmes. New York City, early 1900s. Craig Kennedy, a university professor who uses science to help catch criminals, investigates crimes in and around NYC boroughs featuring deaths by apparent but inexplicable means. These highly imaginative crimes include spontaneous combustion and vengeful spirits along with less fatal crimes involving kidnapping, safe cracking, and a missing fortune in diamonds. With his impressive knowledge, friend Walter Jameson, his own Watson, and use of cutting edge technology of the day, Kennedy cracks each case using unorthodox yet entertaining means. Arthur B. Reeve's Craig Kennedy stories were so popular in his time that he went on to publish twenty-six books featuring the professor who also appeared in comic strips and a number of films. Readers of classic crime fiction will delight in this collection of twelve short stories. Fans of Sherlock Holmes will especially appreciate Kennedy's insistence on logic and science over brawn.

The Silent Isle Arthur Christopher Benson, 1910 The book that follows is an attempt or rather a hundred attempts to sketch some of the details of life seen from a simple plane enough and with no desire to conform it to a theory or to find anything very definite in it or to omit anything because it did not fit in with prejudices or predilections. Introduction

New Silent Cinema Katherine Groo, Paul Flaig, 2015-09-16 With the success of Martin Scorsese's *Hugo* 2011 and Michel Hazanavicius's *The Artist* 2011, nothing seems more contemporary in recent film than the styles, forms, and histories of early and silent cinemas. This collection considers the latest return to silent film alongside the larger historical field of visual repetitions and affective currents that wind their way through 20th and 21st century visual cultures. Contributors bring together several fields of research including early and silent cinema studies, experimental and new media historiography, and archive theory and studies of media ontology and epistemology. Chapters link the methods, concerns, and concepts of early and silent film studies as they have flourished over the last quarter century to the most recent developments in digital culture, from YouTube to 3D, recasting this contemporary phenomenon in popular culture and new media against key debates and concepts in silent film scholarship. An interview with acclaimed Canadian filmmaker Guy Maddin closes out the collection.

Now Screen World editor Barry Monush has compiled another comprehensive work for every film lover's library. Numerous photos are also included. *American Silent Horror, Science Fiction and Fantasy Feature Films, 1913-1929* John T. Soister, Henry Nicolella, Steve Joyce, 2014-01-10 During the Silent Era when most films dealt with dramatic or comedic takes on the boy meets girl, boy loses girl theme, other motion pictures dared to tackle such topics as rejuvenation, revivification, mesmerism, the supernatural, and the grotesque. *A Daughter of the Gods* 1916, *The Phantom of the Opera* 1925, *The Magician* 1926, and *Seven Footprints to Satan* 1929 were among the unusual and startling films containing story elements that went far beyond the realm of the highly unlikely. Using surviving documentation and their combined expertise, the authors catalog and discuss these departures from the norm in this encyclopedic guide to American horror, science fiction, and fantasy in the years from 1913 through 1929. **Guide to the Silent Years of American Cinema** Christophe P. Jacobs, Donald McCaffrey, 1999-09-30 The latest offering from the Reference Guides to the World's Cinema series, this critical survey of key films, actors, directors, and screenwriters during the silent era of the American cinema offers a broad-ranging portrait of the motion picture production of silent film. Detailed but concise alphabetical entries include over 100 film titles and 150 personnel. An introductory chapter explores the early growth of the new silent medium, while the final chapter of this encyclopedic study examines the sophistication of the silent cinema. These two chapters outline film history from its beginnings until the perfection of synchronized sound and reflect upon the themes and techniques established with the silent cinema that continued into the sound era through modern times. The annotated entries, alphabetically arranged by film title or personnel, include brief bibliographies and filmographies. An appendix lists secondary but important movies and their creators.
