A Model-Based Perspective

 Springer

# Semantic Web Information Management A Model Based Perspective

**P. Garbacz, O. Kutz**

## **Semantic Web Information Management A Model Based Perspective:**

**Semantic Web Information Management** Roberto de Virgilio, Fausto Giunchiglia, Letizia Tanca, 2010-01-08 Databases have been designed to store large volumes of data and to provide efficient query interfaces Semantic Web formats are geared towards capturing domain knowledge interlinking annotations and offering a high level machine processable view of information However the gigantic amount of such useful information makes efficient management of it increasingly difficult undermining the possibility of transforming it into useful knowledge The research presented by De Virgilio Giunchiglia and Tanca tries to bridge the two worlds in order to leverage the efficiency and scalability of database oriented technologies to support an ontological high level view of data and metadata The contributions present and analyze techniques for semantic information management by taking advantage of the synergies between the logical basis of the Semantic Web and the logical foundations of data management The book's leitmotif is to propose models and methods especially tailored to represent and manage data that is appropriately structured for easier machine processing on the Web After two introductory chapters on data management and the Semantic Web in general the remaining contributions are grouped into five parts on Semantic Web Data Storage Reasoning in the Semantic Web Semantic Web Data Querying Semantic Web Applications and Engineering Semantic Web Systems The handbook like presentation makes this volume an important reference on current work and a source of inspiration for future development targeting academic and industrial researchers as well as graduate students in Semantic Web technologies or database design

*Semantic Web Information Management* Roberto de Virgilio, Fausto Giunchiglia, Letizia Tanca, 2010-05-03 Databases have been designed to store large volumes of data and to provide efficient query interfaces Semantic Web formats are geared towards capturing domain knowledge interlinking annotations and offering a high level machine processable view of information However the gigantic amount of such useful information makes efficient management of it increasingly difficult undermining the possibility of transforming it into useful knowledge The research presented by De Virgilio Giunchiglia and Tanca tries to bridge the two worlds in order to leverage the efficiency and scalability of database oriented technologies to support an ontological high level view of data and metadata The contributions present and analyze techniques for semantic information management by taking advantage of the synergies between the logical basis of the Semantic Web and the logical foundations of data management The book's leitmotif is to propose models and methods especially tailored to represent and manage data that is appropriately structured for easier machine processing on the Web After two introductory chapters on data management and the Semantic Web in general the remaining contributions are grouped into five parts on Semantic Web Data Storage Reasoning in the Semantic Web Semantic Web Data Querying Semantic Web Applications and Engineering Semantic Web Systems The handbook like presentation makes this volume an important reference on current work and a source of inspiration for future development targeting academic and industrial researchers as well as graduate students in Semantic Web technologies or database design

**Applied Semantic**

**Web Technologies** Vijayan Sugumaran,Jon Atle Gulla,2011-08-12 The rapid advancement of semantic web technologies along with the fact that they are at various levels of maturity has left many practitioners confused about the current state of these technologies Focusing on the most mature technologies Applied Semantic Web Technologies integrates theory with case studies to illustrate the history current state and future direction of the semantic web It maintains an emphasis on real world applications and examines the technical and practical issues related to the use of semantic technologies in intelligent information management The book starts with an introduction to the fundamentals reviewing ontology basics ontology languages and research related to ontology alignment mediation and mapping Next it covers ontology engineering issues and presents a collaborative ontology engineering tool that is an extension of the Semantic MediaWiki Unveiling a novel approach to data and knowledge engineering the text Introduces cutting edge taxonomy aware algorithms Examines semantics based service composition in transport logistics Offers ontology alignment tools that use information visualization techniques Explains how to enrich the representation of entity semantics in an ontology Addresses challenges in tackling the content creation bottleneck Using case studies the book provides authoritative insights and highlights valuable lessons learned by the authors information systems veterans with decades of experience They explain how to create social ontologies and present examples of the application of semantic technologies in building automation logistics ontology driven business process intelligence decision making and energy efficiency in smart homes

#### **Formal Ontology in Information Systems P.**

Garbacz,O. Kutz,2014-09-05 Formal Ontology in Information Systems FOIS is the flagship conference of the International Association for Ontology and its Applications IAOA Its interdisciplinary research focus lies at the intersection of philosophical ontology linguistics logic cognitive science and computer science as well as in the applications of ontological analysis to conceptual modeling knowledge engineering knowledge management information systems development library and information science scientific research and semantic technologies in general As in previous years FOIS 2014 was a nexus of interdisciplinary research and communication The current proceedings is divided into four main sections dealing with foundations processes agency and dispositions methods and tools and applications The last of these covers a broad spectrum of areas including in particular biology and medicine engineering and economy For the first time in its history the conference hosted a special track an ontology competition the aim of which was to encourage authors to make their ontologies publicly available and to allow them to be evaluated according to a set of predetermined criteria Papers discussing these ontologies can also be found in this volume The book will be of interest to all those whose work involves the application of ontologies and who are looking for a current overview of developments in formal ontology

#### **Big Data Governance and**

**Perspectives in Knowledge Management** Strydom, Sheryl Kruger,Strydom, Moses,2018-11-16 The world is witnessing the growth of a global movement facilitated by technology and social media Fueled by information this movement contains enormous potential to create more accountable efficient responsive and effective governments and businesses as well as

spurring economic growth Big Data Governance and Perspectives in Knowledge Management is a collection of innovative research on the methods and applications of applying robust processes around data and aligning organizations and skillsets around those processes Highlighting a range of topics including data analytics prediction analysis and software development this book is ideally designed for academicians researchers information science professionals software developers computer engineers graduate level computer science students policymakers and managers seeking current research on the convergence of big data and information governance as two major trends in information management

**The Semantic Web. Latest Advances and New Domains** Harald Sack,Eva Blomqvist,Mathieu d'Aquin,Chiara Ghidini,Simone Paolo Ponzetto,Christoph Lange,2016-05-22 The 47 revised full papers presented together with three invited talks were carefully reviewed and selected from 204 submissions This program was completed by a demonstration and poster session in which researchers had the chance to present their latest results and advances in the form of live demos In addition the PhD Symposium program included 10 contributions selected out of 21 submissions The core tracks of the research conference were complemented with new tracks focusing on linked data machine learning mobile web sensors and semantic streams natural language processing and information retrieval reasoning semantic data management big data and scalability services APIs processes and cloud computing smart cities urban and geospatial data trust and privacy and vocabularies schemas and ontologies

**E-Business Applications for Product Development and Competitive Growth: Emerging Technologies** Lee, In,2010-11-30 This book will serve as an integrated e business knowledge base for those who are interested in the advancement of e business theory and practice through a variety of research methods including theoretical experimental case and survey research methods Provided by publisher

**The Semantic Web - ISWC 2015** Marcelo Arenas,Oscar Corcho,Elena Simperl,Markus Strohmaier,Mathieu d'Aquin,Kavitha Srinivas,Paul Groth,Michel Dumontier,Jeff Heflin,Krishnaprasad Thirunarayan,Steffen Staab,2015-10-13 The two volume set LNCS 9366 and 9367 constitutes the refereed proceedings of the 14th International Semantic Web Conference ISWC 2015 held in Bethlehem PA USA in October 2015 The International Semantic Web Conference is the premier forum for Semantic Web research where cutting edge scientific results and technological innovations are presented where problems and solutions are discussed and where the future of this vision is being developed It brings together specialists in fields such as artificial intelligence databases social networks distributed computing Web engineering information systems human computer interaction natural language processing and the social sciences The papers cover topics such as querying with SPARQL querying linked data linked data ontology based data access ontology alignment reasoning instance matching entity resolution and topic generation RDF data dynamics ontology extraction and generation knowledge graphs and scientific data publication ontology instance alignment knowledge graphs data processing IoT sensors archiving and publishing scientific data I oT and sensors experiments evaluation and empirical studies Part 1 LNCS 9366 contains a total of 38 papers which were presented in the research track

They were carefully reviewed and selected from 172 submissions Part 2 LNCS 9367 contains 14 papers from the in use and software track 8 papers from the datasets and ontologies track and 7 papers from the empirical studies and experiments track selected respectively from 33 35 and 23 submissions

**The Semantic Web - ISWC 2016** Paul Groth,Elena Simperl,Alasdair Gray,Marta Sabou,Markus Krötzsch,Freddy Lecue,Fabian Flöck,Yolanda Gil,2016-10-05 The two volume set LNCS 9981 and 9982 constitutes the refereed proceedings of the 15th International Semantic Web Conference ISWC 2016 which was held in Kobe Japan in October 2016 The 75 full papers presented in these proceedings were carefully reviewed and selected from 326 submissions The International Semantic Web Conference is the premier forum for Semantic Web research where cutting edge scientific results and technological innovations are presented where problems and solutions are discussed and where the future of this vision is being developed It brings together specialists in fields such as artificial intelligence databases social networks distributed computing Web engineering information systems human computer interaction natural language processing and the social sciences The Research Track solicited novel and significant research contributions addressing theoretical analytical empirical and practical aspects of the Semantic Web The Applications Track solicited submissions exploring the benefits and challenges of applying semantic technologies in concrete practical applications in contexts ranging from industry to government and science The newly introduced Resources Track sought submissions providing a concise and clear description of a resource and its expected usage Traditional resources include ontologies vocabularies datasets benchmarks and replication studies services and software Besides more established types of resources the track solicited submissions of new types of resources such as ontology design patterns crowdsourcing task designs workflows methodologies and protocols and measures

Managing and Consuming Completeness Information for RDF Data Sources F. Darari,2019-11-12 The increasing amount of structured data available on the Web is laying the foundations for a global scale knowledge base But the ever increasing amount of Semantic Web data gives rise to the question how complete is that data Though data on the Semantic Web is generally incomplete some may indeed be complete In this book the author deals with how to manage and consume completeness information about Semantic Web data In particular the book explores how completeness information can guarantee the completeness of query answering Optimization techniques for completeness reasoning and the conducting of experimental evaluations are provided to show the feasibility of the approaches as well as a technique for checking the soundness of queries with negation via reduction to query completeness checking Other topics covered include completeness information with timestamps and two demonstrators CORNER and COOL WD are provided to show how a completeness framework can be realized Finally the book investigates an automated method to generate completeness statements from text on the Web The book will be of interest to anyone whose work involves dealing with Web data completeness

Reasoning Web. Learning, Uncertainty, Streaming, and Scalability Claudia d'Amato,Martin Theobald,2018-09-14 This volume contains lecture notes of the 14th Reasoning Web

Summer School RW 2018 held in Esch sur Alzette Luxembourg in September 2018 The research areas of Semantic Web Linked Data and Knowledge Graphs have recently received a lot of attention in academia and industry Since its inception in 2001 the Semantic Web has aimed at enriching the existing Web with meta data and processing methods so as to provide Web based systems with intelligent capabilities such as context awareness and decision support The Semantic Web vision has been driving many community efforts which have invested a lot of resources in developing vocabularies and ontologies for annotating their resources semantically Besides ontologies rules have long been a central part of the Semantic Web framework and are available as one of its fundamental representation tools with logic serving as a unifying foundation Linked Data is a related research area which studies how one can make RDF data available on the Web and interconnect it with other data with the aim of increasing its value for everybody Knowledge Graphs have been shown useful not only for Web search as demonstrated by Google Bing etc but also in many application domains

E-Librarian Service Serge Linckels, Christoph Meinel, 2011-04-06 This book introduces a new approach to designing E Librarian Services With the help of this system users will be able to retrieve multimedia resources from digital libraries more efficiently than they would by browsing through an index or by using a simple keyword search E Librarian Services combine recent advances in multimedia information retrieval with aspects of human machine interfaces such as the ability to ask questions in natural language they simulate a human librarian by finding and delivering the most relevant documents that offer users potential answers to their queries The premise is that more pertinent results can be retrieved if the search engine understands the meaning of the query the returned results are therefore logical consequences of an inference rather than of keyword matches Moreover E Librarian Services always provide users with a solution even in situations where they are unable to offer a comprehensive answer

*A Comprehensive Guide Through the Italian Database Research Over the Last 25 Years* Sergio Flesca, Sergio Greco, Elio Masciari, Domenico Saccà, 2017-05-29 This book offers readers a comprehensive guide to the evolution of the database field from its earliest stages up to the present and from classical relational database management systems to the current Big Data metaphor In particular it gathers the most significant research from the Italian database community that had relevant intersections with international projects Big Data technology is currently dominating both the market and research The book provides readers with a broad overview of key research efforts in modelling querying and analysing data which over the last few decades have become massive and heterogeneous areas

**Web Reasoning and Rule Systems** Axel Polleres, Terrance Swift, 2009-10-14 The promise of the Semantic Web at its most expansive is to allow knowledge to be freely accessed and exchanged by software It is now recognized that if the Semantic Web is to contain deep knowledge the need for new representation and reasoning techniques is going to be critical These techniques need to find the right trade off between expressiveness scalability and robustness to deal with the inherently incomplete contradictory and uncertain nature of knowledge on the Web The International Conference on Web Reasoning and Rule Systems RR was founded to address these

needs and has grown into a major international forum in this area The third RR conference was held during October 25-26 2009 in Chantilly Virginia co-located with the International Semantic Web Conference ISWC 2009 This year 41 papers were submitted from authors in 21 countries The Program Committee performed outstandingly to ensure that each paper submitted to RR 2009 was thoroughly reviewed by at least three referees in a short period of time The resulting conference presented papers of high quality on many of the key issues for reasoning on the Semantic Web RR 2009 was fortunate to have two distinguished invited speakers Robert Kowalski in his talk Integrating Logic Programming and Production Systems with Abductive Logic Programming Agents addressed some of the fundamental considerations hindering reasoning about evolving systems Benjamin Grosz's talk SILK Higher Level Rules with Defaults and Semantic Scalability described the design of a major next generation rule system The invited tutorial Uncertainty Reasoning for the Semantic Web by Thomas Lukasiewicz provided perspectives on a central issue in this area

### **XML Data Mining: Models, Methods, and Applications**

Tagarelli, Andrea, 2011-11-30 The widespread use of XML in business and scientific databases has prompted the development of methodologies, techniques and systems for effectively managing and analyzing XML data This has increasingly attracted the attention of different research communities including database information retrieval, pattern recognition and machine learning from which several proposals have been offered to address problems in XML data management and knowledge discovery XML Data Mining: Models, Methods and Applications aims to collect knowledge from experts of database information retrieval, machine learning and knowledge management communities in developing models, methods and systems for XML data mining This book addresses key issues and challenges in XML data mining offering insights into the various existing solutions and best practices for modeling, processing, analyzing XML data and for evaluating performance of XML data mining algorithms and systems

### **Managing Data From Knowledge Bases: Querying and Extraction**

Wei, Emma Zhang, Quan Z. Sheng, 2018-07-31 In this book the authors first address the research issues by providing a motivating scenario followed by the exploration of the principles and techniques of the challenging topics Then they solve the raised research issues by developing a series of methodologies More specifically the authors study the query optimization and tackle the query performance prediction for knowledge retrieval They also handle unstructured data processing, data clustering for knowledge extraction To optimize the queries issued through interfaces against knowledge bases the authors propose a cache-based optimization layer between consumers and the querying interface to facilitate the querying and solve the latency issue The cache depends on a novel learning method that considers the querying patterns from individual's historical queries without having knowledge of the backing systems of the knowledge base To predict the query performance for appropriate query scheduling the authors examine the queries' structural and syntactical features and apply multiple widely adopted prediction models Their feature modelling approach eschews the knowledge requirement on both the querying languages and system To extract knowledge from unstructured Web sources the authors examine two kinds of Web

sources containing unstructured data the source code from Web repositories and the posts in programming question answering communities They use natural language processing techniques to pre process the source codes and obtain the natural language elements Then they apply traditional knowledge extraction techniques to extract knowledge For the data from programming question answering communities the authors make the attempt towards building programming knowledge base by starting with paraphrase identification problems and develop novel features to accurately identify duplicate posts For domain specific knowledge extraction the authors propose to use a clustering technique to separate knowledge into different groups They focus on developing a new clustering algorithm that uses manifold constraints in the optimization task and achieves fast and accurate performance For each model and approach presented in this dissertation the authors have conducted extensive experiments to evaluate it using either public dataset or synthetic data they generated

**Electronic Government and the Information Systems Perspective** Andrea Kő, Enrico Francesconi, 2015-08-10 This book constitutes the refereed proceedings of the 4th International Conference on Electronic Government and the Information Systems Perspective EGOVIS 2015 held in Valencia Spain in September 2015 in conjunction with DEXA 2015 The 26 revised full papers presented together with one invited talk were carefully reviewed and selected from 30 submissions The papers are organized in the following topical sections semantic technologies in e government identity management in e government e government cases open innovation and G cloud intelligent systems in e government open government e government solutions and approaches

**Conceptual Modeling** Wolfgang Maass, Hyoil Han, Hasan Yasar, Nick Multari, 2024-10-26 This book constitutes the proceedings of the 43rd International Conference on Conceptual Modeling ER 2024 which took place in Pittsburgh PA USA during October 28 31 2024 The 22 full papers presented in this volume were carefully reviewed and selected from 113 submissions They are grouped into the following topics process modeling advanced modeling languages ontological modeling domain and goal modeling language models and conceptual modeling applications of conceptual modeling

Web Reasoning and Rule Systems Sebastian Rudolph, Claudio Gutierrez, 2011-08-19 This book constitutes the refereed proceedings of the 5th International Conference on Web Reasoning and Rule Systems RR 2011 held in Galway Ireland in August 2011 The 13 revised full papers 12 revised short papers presented together with 2 invited talks were carefully reviewed and selected from 36 submissions The papers address all current topics in Semantic Web interplay between classical reasoning approach with well established web languages such as RDF and OWL reasoning languages querying and optimization and rules and ontologies

**Artificial Intelligence in Medicine** Mor Peleg, Nada Lavrač, Carlo Combi, 2011-09-15 This book constitutes the refereed proceedings of the 13th Conference on Artificial Intelligence in Medicine AIME 2011 held in Bled Slovenia in July 2011 The 42 revised full and short papers presented together with 2 invited talks were carefully reviewed and selected from 113 submissions The papers are organized in topical sections on knowledge based systems data mining special session on AI applications probabilistic modeling and reasoning terminologies

and ontologies temporal reasoning and temporal data mining therapy planning scheduling and guideline based care and natural language processing

If you ally craving such a referred **Semantic Web Information Management A Model Based Perspective** books that will present you worth, acquire the completely best seller from us currently from several preferred authors. If you want to entertaining books, lots of novels, tale, jokes, and more fictions collections are along with launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every book collections Semantic Web Information Management A Model Based Perspective that we will agreed offer. It is not regarding the costs. Its nearly what you dependence currently. This Semantic Web Information Management A Model Based Perspective, as one of the most working sellers here will totally be accompanied by the best options to review.

### **Semantic Web Information Management A Model Based Perspective Introduction**

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Semantic Web Information Management A Model Based Perspective PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process.

and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Semantic Web Information Management A Model Based Perspective PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Semantic Web Information Management A Model Based Perspective free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

### **FAQs About Semantic Web Information Management A Model Based Perspective Books**

1. Where can I buy Semantic Web Information Management A Model Based Perspective books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Semantic Web Information Management A Model Based Perspective book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Semantic Web Information Management A Model Based Perspective books? Storage: Keep them

away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.

5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Semantic Web Information Management A Model Based Perspective audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Semantic Web Information Management A Model Based Perspective books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
