Global Report on Early Childhood Care and Education Fonds des Nations Unies pour l'enfance, UNESCO, 2024-12-31 **Invited Lectures from the 13th International Congress on Mathematical Education** Gabriele Kaiser, Helen Forgasz, Mellony Graven, Alain Kuzniak, Elaine Simmt, Binyan Xu, 2018-02-05 The book presents the Invited Lectures given at 13th International Congress on Mathematical Education ICME 13 ICME 13 took place from 24th 31st July 2016 at the University of Hamburg in Hamburg Germany The congress was hosted by the Society of Didactics of Mathematics Gesellschaft f r Didaktik der Mathematik GDM and took place under the auspices of the International Commission on Mathematical Instruction ICMI ICME 13 the biggest ICME so far brought together about 3500 mathematics educators from 105 countries additionally 250 teachers from German speaking countries met for specific activities The scholars came together to share their work on the improvement of mathematics education at all educational levels The papers present the work of prominent mathematics educators from all over the globe and give insight into the current discussion in mathematics education The Invited Lectures cover a wide spectrum of topics themes and issues and aim to give direction to future research towards educational improvement in the teaching and learning of mathematics education This book is of particular interest to researchers teachers and curriculum developers in mathematics education *Cradle to Kindergarten* Ajay Chaudry, Taryn Morrissey, Christina Weiland, Hirokazu

Yoshikawa, 2021-03-25 Early care and education in the United States is in crisis The period between birth and kindergarten is a crucial time for a child s development Yet vast racial ethnic and socioeconomic disparities that begin early in children s lives contribute to starkly different long term outcomes for adults Compared to other advanced economies child care and preschool in the U S are scarce prohibitively expensive and inadequate in quality for most middle and low income families To what extent can early life opportunities provide these children with the same life chances of their affluent peers and contribute to reduced social inequality in the long term and across generations The updated second edition of *Cradle to Kindergarten* offers a comprehensive evidence based strategy that diagnoses the obstacles to accessible early education and charts a path to opportunity for all children The U S government invests less in children under the age of five than do most

other developed nations Most working families must seek private child care but high quality child care options are expensive relative to the means of most families This means that children from lower income households who would benefit most from high quality early education are the least likely to attend them Existing policies such as pre kindergarten in some states are only partial solutions and what exists varies tremendously in terms of access and quality To address these deficiencies the authors propose to overhaul the early care and education system beginning with a federal paid parental leave policy that provides both mothers and fathers with time and financial support after the birth of a child They also advance an expansion of the child care tax credit and a new child care assurance program that provides grant assistance towards the cost of high quality early care for low and moderate income families Their plan establishes universal high quality early education in the states starting by age three and a reform of the Head Start program that would include more intensive services for families living in areas of concentrated poverty and experiencing multiple adversities from the earliest point in these most disadvantaged children's lives They conclude with an implementation plan and contend that these reforms are attainable well within a ten year timeline Reducing educational and economic inequalities requires that all children have robust opportunities to learn and fully develop their capacities and have a fair shot at success Cradle to Kindergarten presents a blueprint for fulfilling this promise by expanding access to educational and financial resources at a critical stage of child development Understanding Socioemotional And Academic Adjustment During Childhood And Adolescence, Volume I José Manuel García-Fernández, Carolina Gonzálvez, Ricardo Sanmartín, Maria Vicent, Nelly Lagos San Martín, 2022-02-25
