Text-Dependent Questions, Grades 6-12 Douglas Fisher, Nancy Frey, Heather Anderson, Marisol Thayre, 2014-09-02
Fisher Frey's answer to close and critical reading. Learn the best ways to use text-dependent questions as scaffolds during close reading and the big understandings they yield. But that's just for starters. Fisher and Frey also include illustrative video texts and questions, cross-curricular examples, and an online facilitator's guide, making the two volumes of TDQ a potent professional development tool across all of K-12. The genius of TDQ is the way Fisher and Frey break down the process into four cognitive pathways: What does the text say? How does the text work? What does the text mean? What does the text inspire you to do?
Science Teacher Preparation in Content-Based Second Language Acquisition Alandeom W. Oliveira, Molly H. Weinburgh, 2016-10-25
The primary purpose of this book is to provide science teacher educators with exemplars of professional development programs designed to prepare school teachers to effectively help language learners in science classrooms simultaneously gain language proficiency and conceptual understanding. To this end, this book examines seventeen science teacher preparation programs that span a wide variety of grade levels, elementary, middle, and secondary countries: Italy, Luxemburg, Spain, UK, and US, and linguistic contexts: English as a Second Language, English as a Foreign Language, trilingual classrooms, and teaching deaf children science through sign language. The book is divided into three main parts. Each part consists of chapters that illustrate a common cross-cutting theme in science teacher preparation in content-based second language acquisition: namely, pre-service teacher preparation, in-service teacher preparation, and international perspectives. Each part provides many insights on the similarities and differences in the professional development approaches used to prepare science teaching with varied amounts of instructional experience, help students in different parts of the world overcome linguistic barriers while simultaneously learning concepts central to science. Bringing together researchers from various academic backgrounds, science education, TESOL, and Applied Linguistics, attention is given to varied facets of the intersection of science and language learning in the specific context of school teacher preparation.
