ignore the culture of the punishment and the special political and legislation system in China In this light this work examined and analysed the factors that influence the choice of punishment option to replace the death penalty in this special political system with its clearly Chinese characteristics Criminal policy and public opinion are two significant and typical factors involving obvious political considerations in China The former normally reflects and carries out the will of the Government as expressed to the national management the latter responds to the majority of citizens view on the current legal system and it is to a great extent the basis for national leadership s running of the country Even though life imprisonment without release hereinafter LWOR has been stipulated by the Ninth Amendment for the crime of corruption it should not be the preferable option as the alternative sanction to the death penalty because it is a kind of cruel torture and violates the constitutional principle of human rights protection On the contrary life imprisonment with possibility of release hereinafter LWPR would be an option but the termination mechanisms for inmates should be set out in accordance with the principle of proportional justice aggravated life imprisonment can be chosen to replace the death penalty in China In addition there needs to be improvements made to the relevant criminal systems By examining China s death penalty reform and long term imprisonment reform this book not only explains the methodology of the reform theoretically but also pays attention to the issues of legislation and judicial practice This book is of interest to scholars and researchers in the fields of criminal justice penal reform issues and crime control in China
