Investigation of Concentration of Economic Power United States. Congress. House. Temporary National Economic Committee, 1940 Continuation of investigation of economic concentration in industry and commerce pt 5A Contains FTC report on industry monopolistic practices pt 15A Contains report on marketing practices in the retail distribution of motor fuel and motor lubricant products pt 17A Contains replies of oil companies to the committee questionnaire on financial data and related topics **Access Management** ,1996 The Iowa Department of Transportation s Access Management Task Force was established as part of the Iowa Department of Transportation s overall Safety Management System SMS effort The goal of the Access Management Task Force is to develop a program designed to educate and market the concept and benefits of access management to landowners and developers professional planners and engineers planning and zoning staff members appointed and elected officials and motorists Access management is pursued through the design and control of driveways curb cuts turning movements interior circulation of parking lots and public street connections and intersections Usually state highways or major urban and suburban arterial streets are the targets of access management projects Access management is also a concern on main county roads when there is a transition from a rural environment to a town or city **Plutonium** Frank von Hippel, Masafumi Takubo, Jungmin Kang, 2019-12-23 This book provides a readable and thought provoking analysis of the issues surrounding nuclear fuel reprocessing and fast neutron reactors including discussion of resources economics radiological risk and resistance to nuclear proliferation It describes the history and science behind reprocessing and gives an overview of the status of reprocessing programmes around the world It concludes that such programs should be discontinued While nuclear power is seen by many as the only realistic solution to the carbon emission problem some national nuclear establishments have been pursuing development and deployment of sodium cooled plutonium breeder reactors and plutonium recycling Its proponents argue that this system would offer significant advantages relative to current light water reactor technology in terms of greater uranium utilization efficiency and that separating out the long lived plutonium and other transuranics from spent fuel and fissioning them in fast reactors would greatly reduce the duration of the toxicity of radioactive waste However the history of efforts to deploy this system commercially in a number of countries over the last six decades has been one of economic and technical failure and in some cases was used to mask clandestine nuclear weapon development programs Covering topics of significant public interest including nuclear safety fuel storage environmental impact and the spectre of nuclear terrorism this book presents a comprehensive analysis of the issue for nuclear engineers policy analysts government officials and the general public Frank von Hippel Jungmin Kang and Masafumi Takubo three internationally renowned nuclear experts have done a valuable service to the global community in putting together this book which both historically and comprehensively covers the plutonium age as we know it today They articulate in a succinct and clear manner their views on the dangers of a plutonium economy and advocate a ban on the separation of plutonium for use

in the civilian fuel cycle in view of the high proliferation and nuclear security risks and lack of economic justification
 Mohamed ElBaradei Director General International Atomic Energy Agency 1997 2009 Nobel Peace Prize 2005 The 1960s
 dream of a plutonium economy has not delivered abundant low cost energy but instead has left the world a radioactive legacy
 of nuclear weapons proliferation and the real potential for nuclear terrorism Kang Takubo and von Hippel explain with power
 and clarity what can be done to reduce these dangers The governments of the remaining countries whose nuclear research
 and development establishments are still pursuing the plutonium dream should pay attention Senator Edward Markey a
 leader in the US nuclear disarmament movement as a member of Congress since 1976 The authors have done an invaluable
 service by putting together in one place the most coherent analysis of the risks associated with plutonium and the most
 compelling argument for ending the practice of separating plutonium from spent fuel for any purpose They have given us an
 easily accessible history of the evolution of thinking about the nuclear fuel cycle the current realities of nuclear power
 around the world and arguably most important a clear alternative path to deal with the spent fuel arising from nuclear
 reactors for decades to centuries to come Robert Gallucci Chief US negotiator with North Korea 1994 Dean Georgetown
