2^e édition

CURSUS

LA COLLECTION QUI VOUS RÉUSSIT

La sociologie de la culture, tout comme les définitions même du mot culture, est l'objet de débats et de polémiques passionnantes et souvent passionnées. Le but de cet ouvrage est de resituer les travaux – théoriques et empiriques – dans la dynamique de ce champ de recherches vaste et varié. Derrière des oppositions entre « des écoles » ou des auteurs.e.s, des méthodes ou des façons d'aborder la culture, peuvent être dégagés des points de rencontre et des complémentarités. Par ailleurs, les débats les plus actuels, soulevés par les (r)évolutions liées au numérique, l'importance prise par les études de genre, et l'émergence de nouveaux publics (les enfants, les fans), sont abordés, à la fois à travers les nouveaux terrains qu'ils font émerger, mais également par les questions méthodologiques qu'ils posent aux sociologues.

CHRISTINE DÉTREZ est professeure de sociologie à l'École Normale Supérieure de Lyon.

century Western Europe prove to be rather inadequate for encompassing contemporary religious phenomena and religious manifestations in other contexts To these new theoretical and methodological demands is added for the sociologist a deontological imperative which takes on all the more importance today as the religious provokes passionate social debate

Popular Culture in Modern France Brian Rigby, 2003-09-02 Culture is one of the most frequently used terms in the French vocabulary It sells not only books newspapers and magazines but also consumer products and political parties But what are the meanings of culture populaire What have the French understood by it and what is its history Brian Rigby's lively and cogent study traces changing notions of popular culture in France from 1936 the year of the Popular Front to the present day Asking why culture has become such a fiercely contested term Rigby considers the work of the major French theorists including Barthes Bourdieu and Baudrillard 1981-1982 guide to departments of sociology, anthropology and archaeology in universities and museums in Canada / Annuaire 1981-1982 des départements de sociologie, d'anthropologie et d'archéologie des universités et des musées du Canada Kathleen Herman, Peter Carstens, 1982-01-01 Prepared for the Canadian Sociology and Anthropology Association and the Canadian Ethnology Society this is the third guide providing detailed information on 76 departments and 1 427 individual scholars for university departments of sociology anthropology and archaeology in Canada Bilingual Edition Discriminating Democracy Emmanuelle Sandrine Chapin, 2011 The dissertation analyzes the projects of popular theater devised by the republican governments and assemblies 1878 to 1893 in order to understand the conflicted point of view of republicans with regard to the democratization of art In the 1880s the four state subsidized theaters the Opéra the Opéra Comique the Comédie Française and the Odéon had a very select audience Yet republicans were divided on the issue of its diversification On the one hand the purportedly inferior moral capacities of the popular public made dramatic performances hazardous without a prior education of its will On the other hand it was fair to let people who paid for the upkeep of state subsidized theaters access these institutions and to fulfill the wish of a significant part of the population to acquaint themselves with high brow culture The successive projects of popular theater represent the various solutions imagined by republican governments to reconcile two contradictory impulses democratization and discrimination They show how a culture of prejudices inherited from previous regimes progressively came to terms with a new conception of justice more respectful of individuals autonomy and sovereignty At the end of the 1870s the minister of public instruction and fine arts Agnor Bardoux denied that the state had any responsibility to democratize art He variously argued that democratization happened spontaneously or that the artistic mission of the state did not include the dissemination of works Jules Ferry believed that the state owed a theater to the lower classes but convinced that lower classes were inferior in their aptitudes he imagined a popular lyric theater that would be the pale copy of the Opéra Finally Léon Bourgeois accepted the director of the Opéra's proposition that the institution should organize reduced price performances Bourgeois thought it more conducive to social peace to promote a common culture than to cultivate separate

class identities In his mind the difference between the people and the elite should consist in their respective degrees of exposure to high brow culture The study of theatrical democratization in the 1880s shows that French republicans abided by two principles of government One which reflected the republicans universalist credo advocated the equal treatment of individuals by virtue of their equal rights The other inspired by utilitarian tenets defended the differentiated treatment of individuals on the grounds of their unequal aptitudes This dissertation argues that the ambiguity of the notion of merit in the republicans discourse did it lie in the essence of a social group or was it the result of individuals actions informed a tension between the desire to extend liberties and democratize elite practices on the one hand and the perceived necessity to control activities and discriminate against the people on the other

The Hellfest - A Pilgrimage for Metalheads Corentin CHARBONNIER, The study presented here shows through the analysis of the Hellfest an annual metal music festival held in Clisson in the Loire Atlantique region of France that this music constitutes a true culture To understand the current position the Hellfest holds for the metal community it is necessary to know its evolution since its creation to examine the relationships it promotes between the festivalgoers themselves and between the festivalgoers and the artists and to examine its role as a place where a community with no real geographical foothold can be united during a given period of time The various sociabilities that are experienced at the Hellfest cannot be understood without taking an interest in the particular economy set up by the organisers an economy that contributes to the recognition of the event and influences its sociabilities The organisers have had and are committed to addressing the wishes of the festivalgoers of all subgenres of metal music making them actors and not just mere consumers and involving local economic actors as well The Hellfest allows each metalhead to take a break from his or her life in a particular space for a defined period of time offering everyone the opportunity to assert or reassert his or her identity through different rituals It is thus the pilgrimage of the entire metal community
